SLANDER.

CLARKESBORO, GA., June 20.

ED. NUGGET—

As I have been silent for some

time I thought that I would give a

few thoughts on the subject of

Slander.

There are some men, and I am

sorry to say, some women, whose

aspirations do not reach higher

than to gossip and talk from door

to door and make false reports and

tell slanderous lies against their

neighbor, to bring reproach on his

or her good name, and often by nod

or wink, add fuel to the flames and

yet not say a word. The only way

some people can bring themselves

into notoriety is by vilification of

others. The man who serves a

sentence in the chain gang or in a

prison cell, does not suffer the

grief, shame and disappointment as

he whose honest, innocent and

pure character is coated with slan-

der.

We can very readily see how a

man can be forced by poverty and

hunger to steal; how men in the

very heat of passion will slay their

fellow man, or by the wreck of

habit, such as drinking too much

and various other things I could

mention, can take their own lives

into their hands and plunge their

soul out in to an unknown future

prepared and unprepared.

There are souls too lofty, hearts too

pure, minds too noble, aspirations

too high, intentions too good and

souls filled with the love of God,

to understand how this terrible

monster of all iniquity can ruin the

pure reputation, or destroy the

beautiful character of an innocent

being.

The great painters of the past

century could not draw the picture

of a heart so black, corrupt and

foul that would be a fit sample for

that vile slander which stalks

around trying to blight the life of

an innocent fellow creature.

How shall I treat scandal and

slander? Never be in too big a

hurry to trace it up, and never pay

any attention unless dignity and

duty demand. Wait on God.

"Never brush off fresh mud from

his clothes. Let it dry." Slander

will run its course by and by

and though we may never be pro-

nounced innocent by all, yet char-

acter untainted will shine out again

like the sun through the clouds,

even if the sky never becomes al-

together clear. Be encouraged

when you are slandered without a

cause for the birds always pick for

the sweetest berries. It is the good

fruitful tree that is beat and

thrown at most. Never let slan-

der stop the great ear of your pro-

gress one moment. The perpe-

trator is only seeking to bring you

on a level with himself. "If God

is for you, who can be against

you?"

Read the 37th Psalm.

It is true a man can overcome

slander much better than a woman,

for his sex will help him if he is in

earnest; but if a woman is slan-

dered it is more difficult for her to

overcome it for, I am sorry to say,

her own sex will hold her down.

It's a burning shame that women

try to degrade one of their own

sex. When they should do all in

their power to elevate them in the

rank. Deep down in the hottest

hell, where dwells the foulest d—l,

surrounded by ever conceivable

abundance is the everlasting

poison of the evil tounge slander-

er.

SALLIE REID.

Spain Like an Ostrich.

Whatever sympathy European

nations have to spare is certainly

going out to America. As far as

the press is concerned the change

is complete. All the principal pa-

pers of Paris favor America. A

few journals that do not are hedg-

ing. The Matin has some sensible

remarks on the war. They are

more noteworthy, as the Matin is

a serious paper. "There are two

things in the Spanish-American

war hard to understand. What

advantage is it to the Spaniards to

spread abroad news of victory

every time they are beaten? They

have done nothing else since the

outbreak of hostilities. Then

again, why do they forbid the send-

ing of telegrams from Madrid

when they contain nothing of value

to the enemy? "This is really the

worn-out policy of the silly ostrich,

which thinks because its

head is buried in the sand no one

can see its body sticking in the

air. This action is absurd, seeing

that the suppressed news comes

from some other quarter at the

same time."

Mules Never Get Seaisick.

"Do government mules get sea-

sick?" This was the interesting

and somewhat novel question pro-

posed by Lieutenant Colonel G.

C. Smith, the head of the quar-

termaster's department, says that St.

Louis Republic, upon the receipt

of a telegraphic order from Wash-

ington to immediately ship 120

mules to San Francisco to go with

the reinforcements to be sent to

Rear Admiral Dewey. The trip

across the Pacific Ocean will take

the mules nearly half-way around

the world, the ocean voyage alone

being 7,500 miles in a straight line

from San Francisco. Though the

Quartermaster's Department has

been handling mules for many

years, there was but one man in

the place who could throw any

light on the matter. He had it

from a horse and mule trader that

mules never become seasick, but

horses do.

THE NUGGET.

DAHLONEGA, GA., JULY 1, 1898.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

Judge Fish has proven himself to be a whale.

The name of Dr. C. H. Jones is being mentioned in connection with legislative honors.

Judge Gober carried every county in his judicial circuit, but Judge Fish got him on the home stretch.

The one year-old child of Joe Aderhold at Lavonia, was drowned in a hard can containing only about a bucket of water last Saturday.

The democratic executive committee of Lumpkin county ought to be a legal one as three out of five of the committee who selected it are lawyers.

Last week Governor Atkinson appointed Hon. R. L. Burner, who was a candidate for Governor before the recent primary, Lieutenant Colonel.

The question of the day in Lumpkin county is, will the democrats decide at its mass meeting on the 9th inst., to hold primaries for a member of the legislature and county officers?

W. H. Courtney informed us last Friday that he was no candidate for the Senate of this district on the populist ticket, but if he wanted to he could make the race as a republican and beat them all.

A lot of Iowa volunteers while on their way to Jacksonville, behaved disgracefully on the train last Saturday after passing through Atlanta. They broke all the lamps and windows in the cars and at Constitution got off and charged the house of one of the inhabitants of the town and drove its inmates from their beds out into the woods. Such men as this should be put in front and let the Spaniards get hold of them.

Most of those democrats who knew the track a few years ago and voted against an old confederate democratic soldier for a republican for the house of representatives from Lumpkin county saying then "that it didn't matter about home matters," are now the most anxious for primaries and conventions to be held, and endeavor to get the men in line again so that they may know the strength of the party. It is time to get scared, but they ought to have thought of this matter long ago. It is most too late when half the year is gone to plant a crop and expect a fall yield this fall.

Not many weeks ago we saw a man riding out of Dahlonega alone in a buggy. A footman who was homeward bound, having to go six miles in the same direction that the man who did that rode, asked him if he could ride. The reply was "No no!" at the same time giving his horse a cut with the whip and moved on. Now that man who rode is a candidate and the footman has been appointed one of the members of the executive committee. The question is, does this man love the party and the men who belong to it well enough to travel a foot all over his end of the county now in the interest of this unlovely candidate.

Since the junior editor of the Signal has reaffirmed that he "is a democrat and has always been and has tried so hard to make the senior editor see that way too," maybe he will cease writing communications for that paper criticising the politics of the editor of the Nugget and signing them "A Populist," and it is not likely that republicans will be appealed to any more in person by him requesting that they fuse with the populist of the county "in order to beat out the democrats." He has heretofore been acting the showman—trying to keep up three balls at once—but the announcement has been made that the performance has closed without any success whatever.

Brief War Notes Taken From Each Paper Daily.

FRIDAY.

An insurgent spy from Santiago reports that active preparations are being made for the defense of that city. Admiral Cervera has mounted some of the guns from his ships on the land batteries. The Spanish soldiers and sailors are on half rations.

Admiral Sampson has decided to make the blockade on the southern coast of Cuba more stringent.

The first contingent of re-inforcement for Shafter sailed on the auxiliary cruiser Yale from Fort Monroe yesterday. There were 1,600 men.

Admiral Camara's squadron is enroute to the Philippines and it has been sighted off Palermo, Italy, on the way to the Suez canal.

SATURDAY.

One thousand Americans had a land battle with about 2000 Spaniards within five miles of Santiago. Americans beat the enemy back into the city but lost thirteen men and about 400 wounded, some of whom will die, six of the wounded were officers. Twelve dead Spaniards were found in the bush after the fight but it is believed many more were killed.

Twenty thousand more men are to be hurried to Shafter at San Antonio.

It is feared by the Americans that Pando will send re-inforcements to Santiago. He has 10,000 soldiers.

Under a flag of truce taken by Assistant Chief Stanton, Sampson heard from Hobson and his men. Captain Caneus came out to meet him and stated that Hobson and his men were all well and were confined in Santiago town.

In the landing of the troops on Cuba's soil two men and fifty horses were drowned.

SUNDAY.

The Ninth Massachusetts regiment and a battalion of the Thirty-fourth Michigan went aboard the auxiliary cruiser Harvard yesterday and will sail for Santiago some time today. The detachment numbers 1,500 men, and completes Gen. Duffield's brigade.

The cruiser Vicksburg captured the brig Amapala trying to run the blockade at Havana. The passengers say business is practically suspended and that hunger, if not starvation, starves the people in the face. They say there is no truth in the stories that supplies have come in by the southern coast. Murder and robbery, they say, is of constant occurrence.

MONDAY.

Later and more detailed reports from the battle on Thursday places the American losses at 16 killed, 51 wounded and 9 missing. Up to date 37 dead Spaniards have been found and buried. It appears that Col. Wood's command was led into an ambush, from which only the coolest courage and most desperate fighting succeeded in extricating them.

The opposing forces at Santiago are now only four miles apart. The pickets are within hailing distance of each other. Gen. Wheeler, in command at Sevilla, now has 6,000 Americans and about 1,500 Cubans with him, while other troops are being hurried forward. It seems inevitable that the decisive battle must be fought within a week.

The war department has decided to establish a military prison at McPherson and accommodations will be made right away for 5,000 to 10,000 men.

Spaniards are determined to defend Santiago as long as ammunition and supplies hold out. Heights about the city are strongly fortified which may hold out against the United States army for a month.

TUESDAY.

Today's dailies bring the important news that an American fleet in charge of Commodore Watson will cross the Atlantic for Spain and bring the war home to them. It is believed that it can be brought to an end much quicker this way. Santiago will not be attacked until more reinforcements are received and more artillery is furnished Gen. Shafter. The place is well fortified with the most modern guns. The Spanish army is in trenches shoulder deep with barbed wire in front of them. The insurgents at or near Juraguas number about 5,000. The Spaniards use brass and lead bullets, and the lead tears the flesh horribly while the small brass splinters cause blood poisoning. The Americans are without food on account of the bad roads, but they are being worked on and a sufficient supply of staples will soon be on hand.

Dewey is still at Manila but the outlook is threatening. A Spanish fleet is on its way to that place which will reach its destination about the 2nd of August according to the calculations of the war department. An American fleet has been started which is expected to reach Dewey about three days before the vessels of the enemy arrive, but if it fails Dewey will be in a close place.

Ex-Chancellor Boggs of the State University has tendered his services as chaplain and nurse and may go to Cuba.

Gen. Shafter wants to attack Santiago at once for fear that it is reinforced by 16,000 troops which Spain has in reserve.

WEDNESDAY.

Sevilla has been captured and the soldiers of Shafter's army are facing the fortifications in Santiago. Gen. Linares has been reinforced by Spaniards until he now has 20,000 seasoned troops but starvation is prevailing. Two of the Spanish forts contain each about 4,500 men and stretching around the whole city are nine barbed wire fences, fifty yards apart, while just inside of them are rifle pits. The Cubans believe that if the water supply of the city can be cut off Santiago will have to yield. The Americans are receiving ammunition, gatling guns and dynamite guns.

Commander Sigbee while off San Juan, Porto Rico, was attacked by the Spanish torpedo boat destroyer Terror. St. Paul hit the Terror three times, killing one officer and two men, wounding several others and crippling the vessel and it dropped back under cover of fortifications under much difficulty.

Snyder has left Tampa to join Shafter with 9,000 men.

THURSDAY.

Six transports carrying re-in-

HOW are the children this summer? Are they doing well? Do they get all the benefit they should from their food? Are their cheeks and lips of good color? And are they hearty and robust in every way?

It never fails to build up delicate boys and girls. It gives them more flesh and better blood.

All Druggists, etc., and Scott & Bowne, Chemists, N. Y.

forcements for Gen. Shafter's army will leave Tampa to-day, consisting of 3,000 men.

Gen. Shafter wants to attack Santiago on the 4th of July. He says that he can capture that ancient city within 48 hours. He has information that 12,000 Spanish soldiers are expected from Mazanillo and are not more than five days away from Santiago, and believes he can capture the city before the re-inforcements arrive. No other war news of interest today.

Teachers' Institute.

Monday morning the Teachers' Institute met in the college building with Rev. W. H. Parks as expert and D. L. Cook as secretary. Commissioner Seabolt was on hand and discharged his duties in a business like manner. Rev. T. C. Buchanan of Atlanta made an interesting talk at the opening of the institute. During the first day the work of the teachers was aided by discussions from Prof. Witherspoon and Prof. Stewart. Some valuable suggestions were given by Prof. Gaillard. Mr. V. A. Higgins and Misses Lizzie Chapman and Lila Cain were appointed to draft suitable resolutions for the institute, and V. R. Hicks and Misses Alice Roberts and Lula Higgins were appointed as a committee on entertainment. Prof. Stewart stated that he would give five dollars to the school that furnished the most members for the Georgia Reading Circle. Several of the teachers stated that they would endeavor to start libraries in their schools.

Tuesday morning Prof. T. W. Seabolt was appointed critic for the institute. Cain and Cook explained how they teach both the angular and vertical systems of writing. Later on the subject of reading was taken up and discussed at length. Many of the teachers took part in the discussion and the institute was given some valuable hints along this line by Mrs. Gaillard, and Miss Barney of Augusta. Methods of language teaching were explained by Miss Lila Cain. Prof. Seabolt made an interesting talk as to his method of teaching advanced grammar.

John Chapman, V. R. Hicks and A. W. Cain with many others discussed the subject of geography quite lengthily. G. A. Gurley is still troubled over the "flat system" of geography.

The history discussion was led by W. M. Grindle, M. L. Seabolt and V. A. Higgins.

Among those who have visited the Institute are Paul Castleberry, Mrs. Gaillard and Miss Barney, all of whom have attended as faithful as any teacher. The Institute is still in session as we go to press.

Don't forget that a cross mark on your paper means that your subscription to the same has expired.

The wheat crop in this section is not producing as good a yield as was expected.

Rev. Hubert Smith and family arrived in the city this week for the purpose of spending some days with relatives.

Charles Jones, who is successfully operating a gold mine up in White county, paid our town a pleasant visit this week accompanied by his new bride.

Not much has been said about it but R. W. Walker still has a number of hands pegging away on the Crescent Gold mining property exposing many valuable gold bearing veins.

The inmates of the Adams House beyond Crane's Hill have moved to Mechanicsville and the council will have to have the road down that way worked out for the benefit of the many frequent visitors.

Bright Boy Wanted.

An active, energetic boy can make from fifty cents to several dollars each Saturday acting as selling agent for PENNSYLVANIA GRIT, the great illustrated family newspaper, in town where it is not already represented. The publishers send the paper each week for sale on commission and there is no capital required and no risk. Copies of Grit can be seen at this office, or you can obtain them, together with complete information, by writing to Grit Publishing Co., Williamsport, Pa.

THE NUGGET.

DAHLONEGA, GA., JULY 7, 1898

Judge Tate was housed up first of the week on account of sickness. Five blooded pigs for \$1.00 each. B. R. MEADERS & SONS.

Several citizens of Dahlonega went up to preaching at Oak Grove last Sunday.

Mrs. A. G. Wimpy was taken suddenly ill Saturday night but is much better at this writing.

Subscribers continue to come in. We have a sensible people who know a good thing when they see it.

Geo. Duff removed 115 fish from his basket the other morning and it wasn't much of a good time for fish either.

"Bud" Harris, residing on Chestnut river, was stricken by paralysis some days ago and is in a critical condition.

Ladies' shoes 64c and up, children's shoes 25c and up, and they are better than the price would indicate. B. R. MEADERS & SONS.

Last Sunday was the regular monthly meeting of the members of the colored Baptist Church. They had a baptizing and a good meeting which were largely attended.

Just as we had about decided that the war excitement had caused all persons to do away with the suicidal craze, especially men (for they can be relieved of the unpleasant duty by the Spaniards in going to Cuba) we learned that Miss Beckie Howell, a resident of our town, had become tired of living last week and made an effort to take laudanum so as to hasten her spirit to yonder world.

Last Sunday afternoon the corpse of Mrs. Martin McBrayer was carried through town to Rock Springs cemetery to be placed by the side of her husband who passed away many years ago. The deceased died in Niublevill district at the residence of her daughter, Mrs. Newton Satterfield, where she has been lingering for some time. Thus another good, kind, christian hearted lady has passed beyond and another one of Lumpkin's old land marks is gone. She was aged 82.

Last Saturday afternoon Logan Campbell and George Jenkins hitched up the farmers horse for the purpose of making a pleasure trip in a cart. George hopped into the vehicle and before his companion got one foot off of the ground the horse made off down the mill road at a very quick speed. The occupant of the cart thinking it a little doubtful about making the curves over this rough road successfully he turned loose the lines and made a leap like a circus man and struck the ground without receiving any injuries. When the animal reached Wimpy's mill it had a very light load—axe, two hubs and a pair of shaves.

Notwithstanding the last legislature passed an act making it a violation of law for Justices of the Peace to make up state cases and not returning them to the clerk of the superior court they have recently been doing it in this county. For the sake of getting a dollar or two they will risk going to the chain gang else pay a heavy fine. When peace officers violate the law themselves how do they expect others from doing so? It is a bad example and will never be stopped in this county until the grand jury takes the matter in hand and causes a few heavy fines to be paid. Who is it, when he gets mad, minds paying two or three dollars to whip a man, or at least make the effort? And when Justices hold out inducements by letting them do so by charging them only their cost and the arresting fee there will always be trouble and maybe some one killed. If the state laws were as tight as Uncle Sam's and carried out as promptly it would in the end be better for the defendant, tax payer and all concerned.

Both the Baptist and Methodist pastors of the Dahlonega churches held interesting services last Sunday.

Merchant Ben Anderson has put his heavy stomach off but doesn't think that it will interfere with his walking a foot log.

C. W. Satterfield, the clever business manager of The Commissary, has been confined to his room sick during the week. M. G. Head is filling his place.

Prof. Gaillard is also absent this week at Indian Springs attending the Georgia Teachers Association. When it is over he will return to Griffin and spend some weeks with his mother.

Three of the old students of the Dahlonega College who attended the institution in 1886 are now serving as officers in the army, to-wit: E. H. Aldman, W. R. Shamblee and R. E. Dart.

Capt. W. J. Worley gave us his full name Saturday. It is: Wm. Henry Harrison Lookaby Jasper Worley. Now if any one desires a name for their baby they have an opportunity of selecting from this list.

It is understood that Col. Farrow, of Gainesville, is making an effort to have the daily mail via Auraria changed via. Wahoo, and a petition is being signed by our citizens asking that the routes remain as they now are, as a change would accommodate fewer people than under the present system.

Bill Reid, who carries the Yahoola mail, with an ox team, is one of the cleverest and most prompt carriers we have. Some days since while returning from Dahlonega with the mail one of his steers gave out. He gave a lady a gallon of syrup for the use of another and moved on and reached Yahoola post office promptly on time.

W. T. Seabolt, who is in charge of a flourishing school at Nacoochee, is here this week attending the Teachers Institute during his vacation, being the first visit he has made us for some time. Mr. Seabolt has had many solicitations for him to make the race for representative of Lumpkin county but says that his contract with the patrons of his school prevents him from becoming a candidate for any office.

The other night while John Anderson, col., was sitting up with a corpse in his neighborhood, Chas. Anderson, the eighteen-year-old son of Eliza Anderson, a relative, made a call on John's wife after she had retired. A warrant was procured for him and he was brought in by Constable Wash Christy on Friday night and caused to make a bond, being charged with an assault with intent to rape.

Last week we requested the names of all persons residing in this county who were willing to say that they would not support any candidate who would treat on liquor for the purpose of gaining votes, and how many do you think have handed in their names that reside in this "dry" county, "dry" town, a place where we have a so-called flourishing Temperance Union where so much time has been spent in talking about the ruin and disgrace intemperance brings about? Two—B. R. Meaders and R. C. Meaders. Now we are determined to sift this temperance movement and see whether its members mean business or whether the varnish is just being rubbed on for an outside appearance. If the latter is the case they had just as well blow out the lights and shut the doors and devote their time to something else. This is the way much good can be accomplished if it is gone at in the right direction. There is no use going down to the church holding these temperance meetings and asking the Lord to increase the temperance movement unless you do your part. Perform what is already in your power to do and then He will do His part. Let this matter be brought before the next temperance meeting.

Deputy Marshal Grizzle went to Atlanta last Monday to carry down a prisoner captured last week who had been manufacturing mountain dew.

Mr. Buckhammon, traveling agent of the Christian Index, has been in Dahlonega during the past few days in the interest of his paper and the guest of Rev. W. H. Parks.

Prof. Stewart, president of the N. G. A. College, left last Tuesday to attend the Georgia Teachers Association at Indian Springs, Ga., accompanied by his wife.

Fred Price, who has recently been appointed second lieutenant, left first of the week to stand the examination at Fort Monroe. If he passes he will become a target for the Spaniards and if not he will return home which will be of much more pleasure but less money to him.

Town Marshal Davis has been looking after the sanitary condition of our town during the past few days. It is a little singular that some who neglect to clean in and around their premises until they are forced to do so by an officer so as to keep them from getting sick and maybe dying.

It was asserted last week that Mr. Bruce who recently returned from the West and bought property and located in Dahlonega, had become dissatisfied is news to Mr. Bruce. He is perfectly satisfied and says he has better health here than in the West. It is true that he is going back but it is for the purpose of winding up some business.

Messrs. Wright and Jones, of Chicago, who control large mining interests in Lumpkin and Union counties, arrived in Dahlonega to gether with their experts Wednesday afternoon for the purpose of commencing active operations in both counties at once for mica and other valuable minerals. They left for Union yesterday and will be joined by Capt. W. J. Worley, of Dahlonega, first of next week.

If you want a sewing machine, bicycle, watch or clock repaired or organ or piano made good call on G. H. McGuire, the jeweler, Dahlonega. Then if you want to buy a clock or your eye sight is failing you just let him know it and he will sell you one of the best clocks in town and fit up your eyes with a pair of glasses that will make you think that you are only sweet sixteen.

Next Monday night is the regular monthly meeting of the town council at which time the marshal question will be discussed again and a change will probably be made. We understand that J. B. Anderson, J. R. Graham and G. D. Bruce will likely be applicants. The one given the longest pole will knock the persimmon but who will get it we are unable to say as the verdict of a town council is about as uncertain as that of a special jury. Since writing the above we learn that Marshal Davis' resignation takes place today by order of the council.

Some nights ago a certain married man in Dahlonega went in and told his wife that she and the children could go to bed as he had to go out and attend to some important business but would be in after awhile. "I will go with you papa!" was the good woman's reply. He then decided not to go but went to bed too but didn't go to sleep for a long time thinking of his disappointment. It is a pretty hard matter to fool a woman long. Some time ago a certain lady in Dahlonega suspended home late at night, was drinking liquor. She was determined to find out and made it a point afterwards to get up and kiss him mattered not what hour and how late it was. The son would try to hold his breath to keep her from catching up with him. Old mountain dew would not allow his concealment to be made in this manner but came boldly to the front and told the sad tale. If other mothers would adopt this plan they would learn a secret.

Miss Croffie Stow and her brother Chalmers have returned from an extended visit to Blue Ridge.

Robt. Howell, who was not expected to live a short time ago has gradually been recovering for several days and will likely get well now.

Porter Springs is presenting a lively appearance now. Thirty-five guests had arrived up to the middle of the week and by this time no doubt the number has increased.

W. T. Honeykoff, book keeper for the firm of J. J. & J. E. Maddox, Atlanta, Ga., is stopping at the Strickland House where he will remain for a month for the purpose of recuperating his health.

An interesting article will be found on our first page from Miss Sallie Reid who is now located at Clarkboro. The writer tells unvarnished facts in this article which will make it full of interest to all.

Don't take any part of the Nugget for patent matter. Original interesting items will be found on every page. This paper belongs to no political party but will contain news that will be read with interest by all.

Messrs. Gurley, Baker, Boyd and Charters have been absent this week attending the Congressional and state conventions that were held in Atlanta—Congressional in Gainesville Tuesday and State in Atlanta Wednesday.

Prof. Paul Allen, who has been in charge of the Ancient Languages in a college in Kentucky for some time, arrived at his home in Dahlonega last Tuesday where he will likely spend several days with the old folks at home before he departs again.

Last Tuesday a messenger came down from Two Run to notify J. R. Graham that his father was very sick requesting him to go at once but Mr. Graham had gone up into White county in search of a job and his exact whereabouts is not known.

We will state in reply "that if primaries were ordered would we make the necessary change in the announcements of those having already announced who desire it," that we will free of charge. We will throw no obstacle in the way and they can do as they please.

Jess Adams, a lad of Dahlonega, who has been engaged in carrying the mail to Gainesville for some time, enlisted in the army last Monday. Jess prefers fighting Spaniards to carrying Uncle Sam's documents these hot days but we guess he will wish he was back on the line many a time before the war ends.

The trustees of the Dahlonega graded schools are getting every thing ready for the purchasing of lots and the erection of school houses as rapidly as possible. The exact locations have not yet been decided. The plans and specifications are being prepared and the bonds printed, and within a short time the contract will be ready for the mechanic to figure on when it will be let out to the lowest responsible bidder who will be required to make a good and sufficient bond for the faithful performance of the work.

The two candidates for Clerk of the Superior Court—John H. Moore and G. C. Wallace—met last Monday and had a consultation and agreed on a fair plan of campaign. The most important thing they agreed to was not to use any liquor or other intoxicants in the race, either directly or indirectly. Now this is a move in the right direction and will insure a fair election as far as concerns the Clerk's office. Let all the candidates and their friends make the same resolve and agreement and have one clean election in old Lumpkin. Let the people express themselves fairly and squarely at the ballot box without any excitement or intoxication, debauchery and crime and then every one will be satisfied with the officers elected, and they will be good officers. Matters not who they are.

Postmaster Brittain last week received a new, beautiful and serviceable pair of mail bags for the Kilijay mail carrier.

Prof. Bernard Amsted and lady, of Demorest, spent Friday night and a portion of Saturday in our pleasant little city. While here a committee from the members of the Board of Trustees met and recommended that he be elected to take charge of the French department of the N. G. A. College at the beginning of the fall session.

Last Saturday the rest of the new members of the Board of Education selected to look after the school interests of Lumpkin county were tendered their commissions. After which a meeting of the Board was held and Rev. W. H. Parks, of Dahlonega, was elected expert of the teachers institute which is now in annual session at the college.

An effort will be made to get a direct mail route from here to Cleveland via. of A. J. Edges and have a post office established at his house for the accommodation of the neighbors in his section who have to come from six to seven miles to get their mail. Surely this won't be asking too much of Uncle Sam when he delivers peoples mail in cities three times a day at their houses.

Wm. Waldrup, who recently came to Dahlonega from Blue Ridge and pretended to run a barbershop in our town for a week or so, left out for parts unknown on Friday night in company with the divorced wife of "Buck" Evans, so we are informed. It is said that the man only accumulated one dollar while here and when this money gives out their pleasant tour will give to an end and the woman will be left in some strange place to see the folly of her way when it is too late. It is stated by those who know that Waldrup has a living wife and child at Blue Ridge.

Mack Clark, who resides in Mill Creek district, came to town last Friday on some business. While enroute he fell in company with a person who had liquor, and having no vessel to put any in he filled up his "tank" and came on to town. By the time he reached here the liquor got in its work and he soon occupied the position of a lying down rest in the house of George Elrod, col., near the calaboose. Soon afterwards the towns good Samaritan came along and with the assistance of Harve Anderson removed him to a shade within the walls of the lock-up and fastened the door. A few hours afterwards he was given access to the pleasures of the outside world, all costing him only \$4.00.

The week after commencement several of the boys who had taken on too much tea and created so much fun to the annoyance of the town during the previous week, were caused to go before the mayor and fined, while the most reckless ones who did more mischief such as drawing pistols, knives and cursing out the town, were allowed to go unmolested, and those who got into trouble with one of these reckless parties felt that they were fortunate for they were not troubled either, mattered not how harmless they were, for the marshal could not afford to take one without the other. And no longer than last week two parties were taken up and made to pay fines for plain drunks alone. Such as this will cause others to be reckless too, if they can have all the fun they want free of charge. If some would be required to give a bond for their appearance at the Superior Court it would put a stop to this kind of conduct to a certain extent. We do not favor making an example out of any one but believe the mayor should give them fair warning and then when they come before him with cases that should be investigated by a higher court take the proper steps so that it will be done. Only a few efforts in this direction would soon restore peace and good order and reduce the number of "bullies."

Albert Coffee, col., is now running the Gainesville mail route via. Wahoo.

You will find at Moore & McGuire fruit jars, fruit jar rubbers, and jelly glasses.

We understand that Chas. Meaders, of this county, has enlisted in the army.

J. W. Chapman and Smith Harris leave today for Silver City to take charge of a school.

W. B. Ship, one of Union county's most enterprising farmers paid us a pleasant as well as a beneficial visit yesterday.

The Kentucky mill is now pounding away on good ore recently taken from this well known valuable property.

The neighborhood of New Bridge was visited by a heavy wind, rain and hail storm last Sunday afternoon doing no damage except uprooting a few fruit trees and unroofing a barn or two.

Mr. Whorton, of the Calhoun mine, was in our town Tuesday. He now has a large force of hands at work down there constructing the dam and performing much other work in order to enable this celebrated mine to be worked successfully.

There are a number of postmasters in Lumpkin county who do not take any paper at all but depend upon their patrons for all the information they get is why subscribers papers are sometimes misplaced. Such as well go to their meat tubs for your bread. Don't be so stingy and tight that the eagle on your dollar chirps with pain but send it in and get a paper of your own.

Lumpkin county has been visited by the angel of death this week and another one of her old land marks lay to rest in the city of the dead—Uncle Hiram Grindle being the one who breathed his last Wednesday afternoon at 2 o'clock. The deceased had been confined to his bed a long time and endured much suffering and pain, but he is at rest now and numbered with the blessed.

"Shotgun" Walker was in town Wednesday looking more pleasant than common on account of the recent arrival of a new twelve pound girl at his house. He quit talking long enough about the little visitor to ask us to state that his announcement for sheriff would soon appear and requests that all political parties come up on the day of the election and affiliate with him long enough to enable him to get into the sheriff's office.

Today is the first of the quarter and the Dahlonega post master requests us to state that those desiring boxes must come up and pay for them in advance or surrender their keys otherwise they will have to get their mail at the general delivery window. By taking due notice it will save you embarrassment, especially when you desire postage stamps booked to you for no one can get them without the money hereafter. The government requires it and they cannot afford to run any risk to accommodate any one in this respect.

The recent war tax which becomes a law today effects every citizen and requires a stamp to be affixed to deeds and other papers besides you have to pay two cents extra for every money order you get. These stamps must be affixed by the party executing them; they must write or stamp their initials and date across the stamp. There is a penalty for failure to attach stamps, and the act also provides that any instrument that requires a stamp will be invalid if the stamp is omitted. Some of the papers and articles that require stamps are, each bank check, 2 cents; each telephone message for which a charge of fifty cents or more is charged, one cent; every deed where the consideration is \$100 and not more than \$500, fifty cents; each additional \$100, fifty cents; every telegraphic message, one cent; every lease of land for one year, twenty-five cents; more than one and not over three years, fifty cents, and so on.

**Col. Farrow Wants No Mail
Route Changed.**

GAINESVILLE, GA., July 1, '98.

ED. NUGGET:
I have just read your valuable
paper and see in it that I am en-
gaged in an effort to have the daily
mail changed from the Auraria
route to the Wahoo route, and that
our friends on the Auraria route
are circulating a petition asking
that matters remain as they now
are on these two routes.

I am sorry our friends in that
section are under any such impres-
sion for there is not a word of
truth in it. If there is any such a
proposition on foot it has not come
to my knowledge. Tell them not
to get overheated this hot weather
running with any such a petition
for there is no such movement on
foot. But, if any of them have
impaired their health by over ac-
tivity in their efforts to head me
off tell them to get at once to the
Queen of the Mountains and I will
board them at half price until they
are restored to good health. Some
"Star Route" fellow put that out
on me because I am making them
carry the mails according to con-
tract. Fines to the tune of \$25.00
each imposed upon them for disre-
garding their contracts and coming
in two and three hours behind time
have been put upon them and they
are now coming to time whether the
weather is hot or cold and be-
cause I am after them they are li-
able to think I am after everybody
else. No, if there is any move-
ment on foot to change the daily
mail to the Wahoo route I don't
know it, and if any of our friends
are at all hot over it tell them to
go up to Porter Springs and cool
off at half price.

Yours respectfully,
HENRY P. FARROW.

Items From White County.

The people of White didn't take
much interest in the recent judi-
ciary convention as only 31 polls were
cast—29 for Goben and 2 for Fish
—all being voted at Cleveland.

The teachers convention here
last week was very well attended.
It was conducted by Prof. Gun-
nell, from Ball Ground, Ga.

The District Conference of the

ably make a visiting tour through

near future.

We are surely a dry town just
now. Dry overhead and dry un-
derneath, dry inside and out. Dry
all around, but thanks to the "I
am," rain cometh by and bye, and
may the highest deliver us from
social and spiritual dryness. So
mote it be.

One effect of the war has been
to greatly diminish the number of
gold seekers on the road to Alaska.
The combination of transpor-
tation companies on the Pacific
coast which was established in the
expectation of extorting high rates
for passengers and freight has
been abandoned. With the res-
umption of active competition
for business there will be a better
chance for prospectors who prefer
freezing in Alaska to frying in
Manila.

Bread Famine in Old Madrid.

Madrid, July 1.—The distress
in this city has become so terrible
that the guardians of the poor,
whose chairman is Senor Aguilera,
the civil governor of Madrid, has
been obliged to intervene to rescue
the dependent people from death
by actual starvation. The guardi-
ans distributed tickets to 8,000 of
the most needy of the sufferers
entitling them to a small parcel of
bacon, beans, potatoes and bread.

The distribution took place
yesterday at the Asylum of Santa
Christina. Hours before the time
for the giving out of the provisions
the streets leading to the asy-
lum were packed with crowds
of famishing people. The police
were entirely unable to manage
the eagerly expectant thousands,
who saw before them the first op-
portunity in weeks to procure a
little nourishing food for them-
selves, and in many cases for their
starving children.

More than 4,000 famished
wretches who had been unable to
procure tickets swelled the
throng, clamoring for bread.

The spectacle was a most pitiful
one, and clearly indicated the
abyss of suffering into which the
war has plunged thousands of the
lower classes.

In the crowds were many peas-
ants and others from the country
whose means of livelihood had
been lost and who came to Madrid
with the futile hope that in the
capital they would be able to find
employment. Suffering and des-
pair were visible on their fea-
tures, and tears stood in the eyes
of many as their scanty dole of
food was passed to them.

When the supply of provisions
had been exhausted Senor Aguilera
ordered that a real, the value
of which is about 10 cents be given
to each of those who had received
no food.

Teachers Institute Closes.

Thursday night the teachers of
Lumpkin county met at the col-
lege for an entertainment. Prof.
Witherspoon was president and V.
R. Hicks secretary. Misses Fannie
Gaillard and Bird McLean's furn-
ished music. Mrs. Gaillard and
Miss Lizzie Chapman read some
splendid selections. The recita-
tions of Mrs. Witherspoon, Misses
Emma Anderson and Maud Wor-
ley were excellent.

Next was a debate. Subject: Re-
solved, That the public schools of
Georgia should be extended to 8
months. Affirmative, Rev. W. H.
Parks and Rev. Z. Speer; negative,
A. W. Cain and G. A. Gurley.
Prof. T. W. Seabolt, Herbert
Smith and D. L. Cook presided as
judges and rendered the decision in
favor of the affirmative.

After the business of the in-
stitute was finished a resolution was
passed requesting our next speaker
and representative to use every ef-
fort possible to devise some plan
by which the teachers can be paid
when their salaries become due.

After passing other resolutions
of minor importance the institute
adjourned and the teachers all de-
parted for their respective homes.

Philippines.

The climate of the Philippines is
humid, and in the swampy land of
the interior especially there is
much malaria. The hottest season
is between the month of March and
the middle of May, followed by a
rainy season of six months with
alternating showers and blistering
sunshine. The winter months are
comparatively agreeable. The mor-
tality among Spanish soldiers has
been very great, fully 25 per cent.
of the 30,000 men sent from Spain
to quell the rebellion of 1896 hav-
ing died from the effect of the cli-
mate. Although the insurrection
was very formidable and called for
vigorous action, on account of the
frightful ravages among his troops
the captain-general became thor-
oughly disheartened, refusing to
ask for reinforcements from
Spain, declaring it to be nothing
less than murder to bring out any
more unacclimated conscripts. It
is stated, however, that the Span-
ish soldiers were without proper
medical attention and, besides,
were miserably clothed and fed.
In these respects at least our sol-
diers will be far better off.

Persons troubled with diarrhoea
will be interested in the experience
of Mr. W. M. Bush, clerk of Hot-
el Dorrance, Providence, R. I.
He says: "For several years I
have been almost a constant suf-
ferer from diarrhoea, the frequent
attacks completely prostrating me
and rendering me unfit for my du-
ties at this hotel. About two years
ago a traveling salesman kindly
gave me a small bottle of Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy. Much to my surprise
and delight its effects were im-
mediate. Whenever I felt symptoms
of the disease I would fortify my-
self against the attack with a few
doses of this valuable remedy.
The result has been very satisfac-
tory and almost complete relief
from the affliction." For sale by

An Uncertain Disease.
There is no disease more uncertain in its
nature than dyspepsia. Physicians say that
the symptoms of no two cases agree. It is
therefore most difficult to make a correct
diagnosis. No matter how severe, or unde-
veloped dyspepsia attacks you, Brown's
Iron Bitters will cure it. Invaluable in all
diseases of the stomach, blood and nerves.
Brown's Iron Bitters is sold by all dealers.

Rigid Army Examinations.

The rigid physical examination
to which enlisted men are subjected
has evoked considerable comment
of an adverse character in all parts
of the country. In many of the
eastern cities only one man in ten
and twelve applicants was accept-
ed. Adjutant General Corbin has
ed issued a statement showing the
work at the recruiting stations,
and it may be said that for an
applicant to secure entrance to the
ranks is like the camel going
through the eye of the needle.
General Corbin's circular shows
that at twenty-nine recruiting
stations for the regular army there
were 17,871 applicants, of which
more than 14,000 were rejected.

The point is made that these
rigid examinations are all very
well for the regular army, but that
they are entirely too severe for the
volunteer service. The News and
Courier of Charleston complains
that the examinations are the cause
of keeping out of the army a great
many men who would make ex-
cellent soldiers, and who ought to
be admitted. It believes that Napo-
leon made a fairly good soldier
and yet a Napoleon could not serve
in the American army, either as
an officer or a private. The Norfolk
Landmark, upon the same subject,
says:

"If a man can stand fatigue and
has plenty of strength to manage
his rifle, it makes very little differ-
ence in these modern days whether
he measures up to a certain height
or tips the beam at a certain point
or not. Size has nothing whatever
to do with his ability to wreak
damage upon an enemy. It was no
more ridiculous for Frederick Wil-
liam I, of Prussia to recruit a
regiment of giants in the eighteenth
century than it is for enlightened
nations at the end of the nineteenth
to make mere size a qualification
for military service. The times
when sweep of sword arm and
might of new were the advantage
in war are no more. A wiry dwarf
with a steady hand and a sharp eye
is necessarily of much more value
as a soldier than a Samson who
cannot shoot.

Some modifications should be
made in the physical examinations
and they will no doubt be made if
the army is to be further increased
in numbers.

Many persons suffer from disor-
ders in the kidneys and bladder
without knowing what is the matter
with them. They should know that
disorders in those organs if allowed
to remain will result fatally. Dr. J.
H. McLean's Liver and Kidney Balm
will restore healthy functional
activity and thus eradicate the
disease. Price \$1.00 a bottle. At
Moore McGuire's.

Sympathetic Husbands.

The sympathetic tenderness of a lov-
ing husband is everything to an ex-
hausted mother, especially during her first
child. George Leyton, Esq., a promi-
nent druggist of Dayton, O., gives the
following case:

A customer of mine, whose wife has used
four bottles of "Mother's Friend" before ad-
mission, says she had to go through the ordeal
of the pain, and there was no bottle on the
market, and the cost was \$100 per bottle, she
would have been dead.

"Mother's Friend" is a scientifically
compounded liniment which affords cer-
tain relief in the various ailments pre-
ceding childbirth, and assures proper
elasticity to the cords and muscles in-
volved in the final effort.

"Mother's Friend" is sold by druggis-
ts, or expressed on receipt of one
dollar.

Born," mailed free on application.

THE ATLANTA (GA.) JOURNAL

Daily and Weekly.

Daily \$5 a Year—Weekly 50 Cents

a Year.

The Weekly Journal is a large paper, con-
taining ten pages of seven columns each.
It is filled with the LATEST NEWS, of
the day, both domestic and foreign. Car-
rying its own leased telegraphic wires, which
are used for no other purpose but to bring
the latest news to the editorial room. The
Journal is prepared to get all the news up to
the latest moment.

In addition to the news, it contains more
special features than any other southern
weekly. Among other things it has a weekly
letter or sermon from Rev. Sam Jones, a
contribution from Hon. John Temple
Graves, letters of travel, biographies of dis-
tinguished men, and many other attractive
features.

The Weekly Journal is beautifully illus-
trated by its own artist. In fact neither en-
ergy nor money is spared to make it the
GREAT SOUTHERN WEEKLY.

An Old Idea.

Every day strengthens the belief of emi-
nent physicians that Impure blood is the
cause of the majority of our diseases.
Twenty-five years ago this theory was used
as a basis for the formula of Brown's Iron
Bitters. The many remarkable cures effected
by this famous old household remedy are
sufficient to prove that the theory is correct.
Brown's Iron Bitters is sold by all dealers.

THE NUGGET.

DAHLONEGA, GA., JULY 8, 1898.
Entered as the Dahlonega, Ga. P. O.
as Second Class Matter.

Judge England, of Blairsville is dead.

Many a married man has to take married life according to directions.

The records show that June was the hottest month for twenty years.

Marietta had a small cyclone last Friday. Damages were light and no lives lost.

Two deaths occurred in Chicago last Friday from heat. The suffering from warm weather is great.

Two thousand mattresses are being prepared for the old soldiers when they meet in reunion in Atlanta.

The Georgia bankers, at their recent meeting, decided that the depositors must pay the stamp tax on checks imposed by the war revenue bill.

Maj. General Lawton who frequently visited Dahlonega for the purpose of inspecting the military department of the N. G. A. College led the fifth corps in the battle at Santiago Thursday last week.

The Gamesville News is the name of a new paper which made its first appearance in that city last week asking for a liberal share of the patronage of her citizens, published by John Blatts. It is brim full of interesting news.

L. Z. Leitner, the young Chicago, wheat gambler is in hard luck. He has completed negotiations with the Northwestern Life Insurance Company for a loan of \$3,000,000 for ten years at 4 per cent. We trust that all other such gamblers will go the same route.

The Atlantic Transport Line, which has its head quarters at Baltimore, has sold the government seven of its fleet in service between New York and Great Britain to be used for carrying live stock and other supplies to the army in Cuba. The amount received by the Company for these vessels is \$4,000,000.

Mr. J. P. Brooke of Milton county, was nominated by the Populist Congressional convention of the Ninth district, which met in Gainesville last week. He is the present State Senator from the Thirty-ninth Senatorial district. Mr. J. A. Parsons was elected chairman of the campaign committee and will appoint the remainder of the committee.

The United States senate has passed a bill which abolishes the postal card service now in use. The measure provides for the senders of postal cards to furnish them instead of the government as heretofore. Any card may be transferred into a postal card, providing a 1 cent stamp is attached. This will save the government the expense of printing and distributing them.

Earnest, a son of Col. W. F. Findley, of Gainesville, was killed in the big read near that city last Sunday by Henry Roark, about a woman named Annie Byrd. The slayer was arrested and lodged in jail without any resistance. Both drew their pistols and Roark got the drop on Findley shooting him in the head. It is said that Roark bathed his head and said that he was sorry that he did it. Coroners jury returned a verdict of murder.

Tomorrow is the day for the democrats to meet in convention and determine whether they will have primaries for the legislature and county officers. What will be the result we will not pretend to say as it is not the unanimous wish of the democrats to have it at this late date by no means. In other words some think that it is too late in the season for an experiment of this kind as far as relates to legislative members and county officers in Lumpkin.

Brief War Notes Taken From Each Paper Daily.

FRIDAY.
Spain's cabinet has decided to courtmartial Admiral Montgo for permitting Devey to destroy his squadron.

A telegram from Madrid says that the peace movement is growing steadily. The Barcelona chamber of commerce has petitioned for the ending of war which will be considered by the cabinet.

Six vessels loaded with soldiers left Tampa on the 30th to be used by Shafter in case he needs them. A Spanish vessel from Mexico landed a large cargo of supplies in Cuba in spite of the tremendous efforts of the blockade squadron to capture her.

SATURDAY.
The Americans after a hard five hours battle took the outer works of Santiago and drove the Spaniards back into the city. The battle lasted until the appearance of the evening shades in which 500 Americans were killed and wounded. The loss of Spaniards is not known as they carry off their dead almost as fast as they fall. The Spanish fleet shelled the Americans as they advanced and Sampson's fleet was hotly engaged. The fight will be resumed until Santiago falls.

The Americans bombarded Manzanillo. The combat lasted 45 minutes. Over forty shells fell in Manzanillo. The Spanish loss was two sailors wounded and eight "bruised."

SUNDAY.
On yesterday 15,000 American troops fought their way across two and a half miles of bitterly contested and strongly fortified country, running the Spaniards into Santiago town. Sampson's fleet was playing on the forts with the desired effect while the land forces advanced on the doomed city. Elcaney is captured. The loss of the Spaniards, killed, wounded and taken prisoners is reported to be about 6,000. Our loss in the two days being about 1,800. Another attack will be made today.

The Spanish fortifications at San Juan were captured by assault. Gen. Duffield made a feint at Aguadores and the forts at that place were battered into bits by Sampson's fleet.

Damara's fleet coaled at sea, and ten of his colliers have started through the Suez canal.

It is reported from Berlin that an agreement has been reached between Germany, France and Russia to the effect that an international congress shall decide upon the disposition of the Philippines.

In Friday's fight Gen. Wheeler, who was sick, insisted on being carried to the front to lead his division.

Captain Tebbett has opened a recruiting station in Atlanta for colored troops for Col. Lee's Immune regiment.

Uncle Sam is scouring the country for 40,000 horses to be used for war purposes for which he is paying a good price. A \$100 horse brings \$110. They are desired to be between five and eight years old, weight about 1,000 to 1,500 pounds.

MONDAY.
Admiral Sampson cables to the navy department that his fleet has completely destroyed the Cervera squadron, driving ashore and burning the armored cruisers Cristobal Colon, Infanta Maria Teresa, Almirante Oquendo and Viscaya, and the torpedo boat destroyers Furor and Pluton. The enemy's loss in killed is several hundred, and there are 1,300 prisoners, including Admiral Cervera himself. The American loss was one man killed and two men wounded. Cervera fought to the end but never raised the white flag. The Spanish vessels made a rush when the Americans least expected it for there was no chance for them to escape destruction.

Warship Charleston reached Dewey with three transports and the troops landed at Cavite on the morning of the 1st. Ladrovo

island was taken on the way and troops left there.

TUESDAY.
The gunboats Hist, Hornet and Wampatuck of the Mosquito fleet engaged nine Spanish gunboats at Manzanillo, Cuba, sinking two and severely damaging several more.

Gen. Shafter demanded the surrender of the city of Santiago, which was refused. At the request of the foreign consuls he agreed to postpone the shelling of the city until 10 o'clock today. If it is not surrendered at that time the assault will be made, both by land and sea.

The Spanish losses in the land fighting is estimated at about 3,000 killed and wounded, with 2,500 captured.

Gen. Miles announces that he will reach Santiago at the head of reinforcements within a week.

The movement of troops from Tampa to Santiago and from Chickamauga to Tampa has begun. Both Georgia regiments will probably be in Cuba before a fortnight has passed.

Admiral Dewey cables the arrival of the first batch of reinforcements at Manila, the capture of the Ladrones and the surrender of the Spanish gunboat Leyte with many important prisoners.

WEDNESDAY.
The papers report no fighting today. Santiago will not be bombarded until the 31,000 women and children, that are not Spaniards can be removed from the city. The place is in a terrible condition. The people are starving. Rice is practically the only staple of food they have. It is not believed that the Spaniards will surrender and troops are being hurried there—7200 passed through Atlanta last Wednesday. Schly gets the credit for the destruction of Cervera's fleet instead of Sampson, as Commodore Schly was in command when Cervera and his fleet made their plucky attempt to escape, and it was under his direction that the fleet was destroyed. While Hobson and his men are in some dark prison no doubt suffering for the want of food and can scarcely be heard from even through the Spanish sources the president instructed that Cervera be allowed the use of the cable to transmit personal messages to his friends and relatives. Besides this the authorities have been ordered to give him the best accommodations possible under military rule for his bravery. He will be brought

to Atlanta. Some want him carried to Washington so that they can give him a kind of a reception, while at the same time Spanish sharpshooters, using smokeless powder, are killing off wounded men as they lay in littered under the treatment of surgeons wearing the emblem of the Red Cross. Under these state affairs we do not believe is giving Severa such a grand ovation.

THURSDAY.
No fight to report again today. Military and naval operations are at a standstill for the present which is believed to mean the coming of peace by some.

Yesterday's papers report the sinking of a French steamer, which collided on the 4th with the Cromartysire having 600 passengers on board, some of them Atlantians.

Board of Education Meets.

Last Tuesday the Board of Education met and disposed of a good deal of important business, every member being present except R. N. Mayes.

Besides locating some schools and performing business of less importance the Board decided to increase the pay of teachers and limit all schools to three months this fall. The salaries to be paid teachers are as follows: 1st grade, \$25 per month, 2nd, \$20 and 3rd \$15. Last year teachers only received for 1st grade, \$23, 2nd, \$18 and 3rd, \$13. This is a light increase but small favors are thankfully received by those who learn the young idies how to shoot.

The County School Commissioner made his report and out of the ten that stood the recent examination for licenses only 8 passed—3 first grade, 1 second grade and 4 third grade.

The Commissioner was requested to close all schools that did not average 15 scholars per month, which will be a drawback to some thinly settled sections in this county.

Dan Howell & Co., of Auraria, were authorized to keep the text books as well as Dr. C. H. Jones, of Dahlonega, which gives all an opportunity to secure books with but little trouble provided they have the money.

The first defendant escorted to the lockup by the new marshal was Mack Moore yesterday who had on too much liquor.

We were visited by a refreshing shower last Tuesday which was badly needed as we had no rain for some weeks. We have had several rains since.

If you are going to the war stop long enough to have your watch repaired by G. H. McGuire before you leave.

Are You Pale?
Are your cheeks hollow and your lips white?
Is your appetite poor and your digestion weak?
Is your flesh soft and have you lost in weight?
These are symptoms of anemia or poor blood. They are just as frequent in the summer as in the winter. And you can be cured at one time just as well as another.

Scott's Emulsion
of cod liver oil with hypophosphites will certainly help you. Almost everyone can take it, and it will not disturb the weakest stomach.

It changes the light color of poor blood to a healthy and rich red. It nourishes the brain, gives power to the nerves. It brings back your old weight and strength.

Valuable to Women.
Especially valuable to women is Brown's Iron Bitters. Backache, weakness, headache, nervousness, stomach troubles, the pain of weakness, and the glow of health, readily comes to the pallid cheek when this wonderful remedy is taken. For sickly children, overworked men it has no equal. No home should be without it. Brown's Iron Bitters is sold by all dealers.

Ned Parks, who left Dahlonega a short time ago to make his fortune in the west, was in Dahlonega last Tuesday and will commence teaching a school over in Wahoo district next Monday.

We hear of frequent "entertainments" being given by the "society" girls in the lower end of town which are attended by persons all the way up from the fifteen-year-old lad to the aged man who has to walk with a stick. In other words, mankind is represented there almost from the cradle to the grave. And one night last week we understand that there was quite a display of pistols made by the fun loving spectators. We were informed this week that the mayor would be requested to send his new marshal down and stop the fun.

Only Thirty and Gray

How is this?
Perhaps sleepless nights caused it, or grief, or sickness, or perhaps it was care. No matter what the cause, you cannot wish to look old at thirty.
Gray hair is started hair. The hair bulbs have been deprived of proper food or proper nerve force.

Ayer's Hair Vigor

Increases the circulation in the scalp, gives more power to the nerves, supplies missing elements to the hair bulbs.
Used according to directions, gray hair begins to show color in a few days. Soon it has all the softness and richness of youth and the color of early life returns. Would you like our book on the Hair? We will gladly send it to you.

Write us!
If you do not obtain all the benefits you expected from the Vigor, write the doctor about it. He may be able to suggest something of value to you. Address, Dr. J. C. Ayer Co., Lowell, Mass.

THE NUGGET.

DAHLONEGA, GA., JULY 8, 1898.

Col. Baker and family visited Atlanta first of the week.

The revenue officials arrested Al Beck in a still house the other day.

City Marshal Bruce is moving into the old Joe Parker residence.

The one-year-old child of Lizzie Anderson, col., was buried last Monday.

The question is now do ordinaries have to put a two cents stamp on their orders?

Don't think that we are crazy because we dated our first page a week ahead this week.

The Cane Creek Falls have gotten to be quite a resort for some of the ladies and their escorts to go bathing these warm days.

Geo. Stamon together with several other Lumpkin miners, have gone up to White for the purpose of operating a gold mine on Dukes Creek.

We understand that the clean ups at both the Singleton and Preacher for June were much better than expected, paying the owners a splendid profit for their investment.

Col. Candler said in Atlanta last week that he used no liquor in the primaries, which shows that liquor is a useless thing in elections. Let every candidate in Lumpkin county try it. Of course all cannot be elected but those defeated will be out but little in the end if they pursue this course.

Rev. Herbert Smith, of LaGrange, preached a very interesting sermon at the Methodist Church in Dahlonega last Sunday. He did not talk about how any of the members of the congregation were dressed but spoke of things that were in the Bible, causing all present to give him their special attention.

Quite likely there will be an abundance of liquor ready for those who expect to get drunk and trade their votes on the day of the election for a few drinks of liquor, as we understand that one of the executive committee of the democratic party has already made his and now has everything in tip top shape for the campaign.

Messrs. Titus and O'Neal, who are interested in the construction of a couple of small dredge boats near the mouth of the Yahoola creek, will soon have them completed. These boats are made small—10x20—so as to work the bed of the creek, which no doubt is very rich and will pay well, if their boats work successfully, and it is believed they will.

Messrs. J. W. Adams, of Chatanooga, Prof. Austin, of Iowa and Frank Adams of Ohio, have been here for some days looking over the gold belt with a view probably of investing. Some of these gentlemen have already visited White and Dawson counties and are now looking over the rich gold fields of Lumpkin to see how they like them. They departed Tuesday.

Other candidates should follow the example of Wallace and Moore, the two candidates for Clerk of the Superior Court, and agree not to use any liquor directly or indirectly. It will be better for them, better for those who drink it, better for the tax payers of the county, better for society and keep many a poor woman's heart from aching with pain and save her and her children from much suffering generally. Two candidates alone at the last election spent \$140 for liquor—one \$60 and the other \$80—and there were probably others that spent more, while, no doubt there were at the same time many a poor woman and her children suffering with hunger while the husband lay stupid and drunk, creating untold misery and woe in the household caused by some greedy office-seeker who delighted in taking advantage of the one who has such a thirst for strong drink.

Ninety visitors at Porter Springs. We are glad to note that Mrs. J. M. Brooks is on the mend.

Robert McClure, of Dawson county, was up on a visit last Saturday to his daughter Mrs. J. H. Moore.

Henry Roberts, Mat Wood and Logan Campbell have sub leased a portion of the Findley mine from Capt. Ingersoll and are moving things right along on some veins.

A letter will be found on our first page from Col. Farrow in reference to the changing of the daily mail line which shows that it is news to the Colonel. Read it and see what the Colonel proposes to do.

Our merchants could purchase their coffee in Ellijay at retail and make a very good profit. There parched coffee sells at nine pounds to the dollar, while in Dahlonega they charge from 12 1-2 cents to 15 per pound.

Both the old soldiers and democrats have a reunion here tomorrow. The soldiers meet for the purpose of seeing how many want to go to Atlanta and the democrats gather to devise some plan by which seekers of positions that are of their faith and order can fill all the offices from the legislature down to bailiff.

B. R. Meaders informs us that while in Atlanta last week he made it convenient to go out to McPherson and take a peep at the Spanish prisoners who were being allowed to walk about for exercise under a strong guard of course, while we have no doubts but what Hobson and his men are confined in some close Spanish prison with but little other to eat or drink.

We were reminded that last Monday was the 4th of July by some little boys popping about a dozen fire crackers. Business didn't suspend as recommended by the Governor for those not having fat offices had to move right along so as to keep the bottom of the meat tub from becoming exposed. The common laborers wages are so low that if they were to stop work one day they would have but very little to eat the next.

Last Sunday night as services closed at the residence of Jacob Dowdy who resides a mile or so from town, Geo. Tow, a lad who is supposed to be from Fannin county, and had been working for Mr. Dowdy for some time, threw a rock at a son of Wm. Scott which struck him on the top of the head making him ugly wound. They had had a few words before but no one expected any further trouble. The father of the wounded boy came to town and put a warrant in the sheriff's hands for Tow but he is out of sight just now and cannot be found.

Last Sunday while Hutch Wimpy and his family were away from home Mr. Wimpy's mule got out of the pasture or stable. When he returned home he began a search. He tracked it to town, on by the cemetery and across Crown Mountain to the edge of the Findley cut beyond where he looked down in the opening of the hill 25 feet below and discovered his animal astride of a big log where it fell while running. The owner went down and to his surprise found the mule unharmed except a few scratches and bruises, which he led out safely, below at the mouth of the cut.

As will be seen by a letter to be found on the first page of today's paper Mr. Shipp from Union county, is up about the foot of the Blue Ridge in search of volunteers for the war. We have no idea that he will have much success unless the young men are more patriotic than some of their parents used to be, as a number of them went across the line during the last war to keep from fighting while others took refuge under big rock cliffs where they remained until moss grew on their backs and were almost unrecognizable when they came out after peace was declared and many of their neighbors had dropped while battling for their country.

Mrs. Minnie Williams of Atlanta, is visiting Col. and Mrs. M. G. Boyd.

Robt. Howell is worse this week and says himself that he cannot recover.

Three very large rattlesnake's pilots were killed on the John Simmons farm last week.

Mr. and Mrs. Joseph Elrod, of Murrayville, visited relatives in Dahlonega Sunday last.

J. M. Jarrard has commenced the erection of a commodious dwelling on Park street near the residence of Col. Huff.

Good new sewing machines at Moore & McGuire's for less than half what you have to pay sewing machine agents.

J. R. Graham has moved his family to his fathers at Two Run, while he is gone to White county to work in the mines.

Rev. A. F. Norton and wife, of Cleveland, spent Wednesday in our town while on their way to their old home in Cobb county where they expect to spend a week or two.

"Shotgun" Walker and Mr. Haden had a few words Sunday about some fruit. The latter drew a knife, the former two rocks and the old man disappeared quickly towards "home, sweet home."

One day last week while James B. Elliott was squatted, taking shelter under a small bush he looked down and found that he was keeping the rain off of a large rattlesnake pilot. Jim's manner of getting up can better be imagined than explained.

Postmaster G. G. Evans, of Wahoo, together with Mr. Pierce, were in last Tuesday consulting the board of education concerning a school in their locality. They had been without any school for some time and were determined to have one if possible. They got it.

The school house for the white children of Dahlonega will in all probability be located on the beautiful and convenient lot opposite Maj. Bassenger's residence on the left of the street leading from town, as a letter has been received from the owner—Mr. Wahl—stating that he will let the town have it for that purpose and leaves the price of the lot to be fixed by his agent here, Capt. H. D. Ingersoll. There is not a more desirable lot for this purpose in Dahlonega—it being the first choice of the board.

As stated in last week's paper Mr. J. L. Davis' resignation as town marshal took effect on the first of July by order of the council on account of having been charged with neglect of duty heretofore. But when Friday came, the first day of the month, the election of a man to fill his place had to be put off until the regular meeting day of the council—Monday in the month and Mayor Price re-appointed Mr. Davis until the time of the meeting arrived. When the body met it had before it the names of Mr. Davis again, M. V. Barker, W. W. Crismon, G. D. Bruce and probably others. The balloting commenced which continued until the body had made twenty unsuccessful votes for a marshal. Mr. Davis had two friends who cast their votes for him nearly every time while the other two members voted for different men and the meeting was adjourned over until Tuesday night and the Marshals badge was placed upon the table and the town was without this kind of an official one day and night being the first time probably that, has been without a marshal in over twenty-five years. When they met again G. D. Bruce was selected to fill the unexpired term of Mr. Davis, who was qualified and told his official duties. Lon is a man that every body likes, weighs about 200 pounds, is stout and healthy and able and willing to pick up an unruly fellow by the back of the neck and let him wiggle himself to death without having to hurt him otherwise.

Mrs. V. C. Cook and Miss Minnie Cartledge are in Gainesville attending the Chautauga.

Miss Pearl Goudlock, of The Glades, is in the city visiting her aunt, Mrs. B. R. Meaders.

At the meeting of the council last Monday night it authorized the issuing of bonds for school purposes.

Our young friend B. P. Gaillard is now handling the yard stick behind the counter of the enterprising firm of Moore & McGuire.

Mt. Zion colored Sunday School will have a picnic at the colored camp ground on Saturday the 23rd inst. The members of all other Sunday Schools are invited to attend with well filled baskets.

A letter received from Fred Price who was recently appointed second lieutenant and left last week to stand the examination, states that he stood the physical examination all right and now has to be tried mentally.

The pastor of the Methodist church in his remarks at the temperance society last Sunday night showed that he was well posted about some of the members of the bon ton society taking on their today after the sun hides itself behind the western hills.

Col. Lilly, who is out in Texas on business writes back that he doesn't like the country. He says he has seen just as good corn crops in this country if not better, than has yet come under his observation in Texas. We have often said that we would not exchange the old red hills of Georgia for any country in the United States.

Bro. Craig is doubtless nearer the sultry region than he expected. He reports the discovery of a sulphur well in Gainesville since Tate was nominated. This is a warning to him, and he will have to change his manner of conducting the campaign hereafter and learn to handle the truth in a more careful manner or he is likely to be swallowed by that sulphur well and will be a gone chieftain.

A gentleman from White informed us that Mingo, the Spaniard, who has been a resident of that county for some twelve or fourteen years, says that he does not want to have anything to do with the present war. He says if he fights with the Americans he will be against his brother who is in that country, and if he goes to Spain and fights there he will be against his wife and children in this country. So we expect that Mr. Mingo will have to be excused from taking any part in the present trouble.

To the voters of Lumpkin county: As it has generally been talked that I would be in the race for re-election to the office of sheriff, I therefore deem it necessary to state that due to business relations I have decided not to make the race. I wish to extend my warmest thanks to my friends for their past support, as well as to those for their offered support should I make the race. Respectfully, J. M. BROOKSHER.

Yesterday morning at 9:30 o'clock our town was thrown into a gloom of sorrow over the sudden and unexpected death of one of her leading and most enterprising citizens, Col. M. G. Boyd, whose days on earth were brought to a close from heart failure. He was a man that was loved and respected by all who knew him, for he was ever ready and willing to accommodate the needy and distressed. He was one of Dahlonega's leading attorneys and stood in the front rank among those of his profession in Georgia, and took great pleasure in lending a hand in anything that would tend towards the upbuilding of his town or county. Was both a member of the M. E. church and Masonic fraternity. The entire community mourns his loss. Thus another one of our old schoolmates have passed out of existence. Funeral services will take place at the M. E. church tomorrow at 2 o'clock p. m., under the supervision of the Masonic fraternity.

It is stated that Mr. Whorton will likely build him a brick residence down on the Calhoun property.

Rev. Mr. Edwards, a distant relative of Judge Brittain from Clarksville, stopped over at the Burnside Thursday night of last week while on his way to Forsyth county.

Henry Edmonson got on a little too much liquor last Friday and was put in the lockup by assistant town marshal James Smith, where he remained until he got sober, and was then turned out so that he might take on some cool water and catch a fresh breeze.

Last Friday the farm of Col. R. H. Baker was visited by a mad dog. It bit one of the Colonels hogs and Jim Davis' dog, and at last accounts was making its way in the direction of the poor house. Men pursued it but it made its escape towards the mountains.

A. G. Kenady, of White county, spent a portion of Sunday and Monday in Dahlonega with his relatives Mr. and Mrs. Wm. Tate. Mr. Kenady is an industrious farmer who, as the old saying is, lives at home and boards at the same place besides he has plenty to spare.

Bearden's bridge across the Chestatee river was reported to the ordinary last week as being in a very dangerous condition, which was damaged by a recent heavy wind. It was already out of plumb but the storm gave it an additional wrench. Judge Tate will give it his attention at once.

The colored Odd Fellows of Dahlonega had an ice cream festival at the colored Baptist church last Friday night the proceeds of which are to convey Eula Jefferson by rail to Augusta as a delegate to the State Odd Fellows convention. The night was warm and the refreshments all went like hot cakes.

The Yahoola post office has been established three months up to the first of this month and the mail since has been carried free of charge by our clever friend W. H. Reid in order to get the office established. Now the mail route will be let out to the lowest responsible bidder by Uncle Sam, who will receive bids by several parties desiring it.

D. T. Harris, superintendent of the Big Joe, was up to see his family last Sunday. Everything is moving along down at the mine in a business like manner. The shaft has reached a depth of about 95 feet and the water has got so strong that they are unable to sink it any deeper until new machinery is procured but are now engaged in taking out ore from a number of valuable veins that were struck while sinking it.

The proper officials were engaged last Friday in making out the insolvent list and recording it in the ordinary's office and found that they had 448 f in on the list, some parties having as many as eight different f in against them. It was found that several had laid themselves liable to be prosecuted by voting in the recent primaries who had paid no taxes for last year and probably previous years.

Mr. Burch who recently had his dredge boat up as far as the Turkey Hill property has moved back down the river in the neighborhood of the Briar Patch. A few days ago he made a very valuable dip on some property belonging to Howell & Miller, of Auraria, and some parties went down last Saturday to see if they could strike the vein but we have not yet learned whether they succeeded or not.

As some of our mining men have been issuing checks to their laborers we give them the recent war tax law on the check question so that they may all be posted. It is as follows: "Bank checks, draft, or certificate of deposit not drawing interest, or order for the payment of any sum of money, drawn upon or issued by any bank, trust company, or any person or persons, companies or corporations at sight or on demand, two cents."

We notice that several wagon loads of blackberries have been sold in Dahlonega to be made into wine. For medical purposes of course.

The Temperance met last Sunday night at the Baptist Church but made no steps towards accomplishing anything. It is in its power to accomplish much good this year but most of its members seem to be afraid to make a step in that direction. Just as well shut the door and bring the show to a close. Most all of the talk about the temperance movement heretofore is only skin deep.

Martin Chambers, who has been a resident of Lumpkin county ever since its establishment, died near Auraria last Saturday morning at 2 o'clock aged about 73. He was a clever honest man, but was an unbeliever during his health, sickness and when departing, so we are informed. He was a man who believed that his troubles all came on earth, but he is dead now. Let his faults all be buried with him.

W. W. Davies, of Atlanta, writes us that he wants a lot of troops to go with him to the war but we doubt him getting very many up this way now as the most of them are marrying so as to keep from going. Doubtless married life will prove a failure to many of them in a few months and the facing of the Spaniards cannons will be preferable to that of a long tongued woman who has her rattle box tied in the middle and loose at both ends.

Our friend James B. Witt appeared in our town last Saturday for the purpose of making it his permanent home for a year or more at least and is now in charge of the books at the Hall Commissary. Jim's health is good and he is the same old boy that was when he left here several years ago, clever, friendly and polite. We extend to him and his family a most hearty welcome.

A few nights ago a lad from the mountains brought down some three or four gallons of blockade liquor for those that love the juice so well. He hid it in the woods near town and came on in search of customers. Soon after he arrived a lot of boys found their way to the lovely spot and while the lad was supplying them some boys in the woods near by made a rush and the blockader made off at break neck speed, being told by his customers that it was the revenue approaching. He had been used to the stock law and ran against a fence causing much pain. By this time the naughty boys had seized his liquor and were making off in another direction and you could see the effects of it in Dahlonega for several days afterwards. We are informed that this boy is bringing liquor here without his fathers knowledge or consent but one of these days the old man will find it out when he is called upon to sign a bond so as to keep his son out of prison.

We believe all the public schools of the county will open next Monday except in Dahlonega. Why should they not begin and continue until the system of public schools are begun in Dahlonega? It's law. It is true that the people of our town have said by their ballots that they favor graded schools but they have not commenced yet and are not likely to do so before the beginning of the new year. In reply to a letter written to the State School Commissioner last week by the editor of the Nugget in reference to the eligibility of members of the Board of Education and local or graded schools he says: "Persons residing within the corporate limits of a town or city having a local system, operated under a special law are ineligible to membership on the county board of education. Dahlonega, however, has no such system of local schools." Why does he say this? Because it has not even got a location for a school house, much less a building or any teachers, and has not received "a pro rata of the public school fund directly from the State School Commissioner," as directed by law governing local schools. For this law he refers us to the acts of '97.

Democratic Convention Votes
Down Primaries.

The democratic convention which
was called to convene last Satur-
day to determine whether it was
the wish of the party to hold pri-
maries for a member of the legis-
lature and county officers in Lump-
kin, convened at 11 o'clock and
was not long in deciding the mat-
ter.

There was a good attendance
but a big portion of those present
seemed to be only spectators as
only 78 persons participated in the
business of the convention as
shown by actual count.

As soon as Dr. Whelchel was
elected permanent chairman and
W. J. Worley chosen secretary for
the occasion W. S. Huff introduced
a resolution favoring primaries,
which was seconded by R. H.
Baker. Both urged the adoption
of the resolution, Mr. Huff stating
that no true democrat would
vote for a republican or any one
outside of his party, while Mr.
Baker wanted to strictly draw the
party line and favored giving the
votes to the strongest party in the
county, be it republican, populist
or democrat.

The remarks of Mr. Huff created
very bitter feeling as we don't
know whether there was a dem-
ocrat in the house, Mr. Huff not
excepted, but what had voted for
some republican in past election.

W. J. Burt, a member of the
executive committee arose and said
that he was as good a democrat as
Mr. Huff, but on this occasion he
was in favor of voting for men
and measures and not party in the
selecting of small offices, who
moved to table the resolution,
which was seconded by Uncle
Timlan Davis, another member of
the executive committee. After
some discussion by different ones
the vote was taken and Mr. Burt's
motion to table the resolution car-
ried by six votes—42 for and 36
against. Then W. H. McAfee
succeeded in having a ballot taken
on the question which resulted as
before—a majority of six favoring
its being tabled. So there will be
no primaries this year and every
body can run for office that desire
to do so.

The re-union of the confederate
veterans of Lumpkin county last
Saturday was attended much larger
than usual, as they desired to get
together and consult and see how
many expected to attend the re-
union in Atlanta on the 29th inst.
Several new names were enrolled
and the Association now has a very
large membership. It is the in-
tention of about 40 to go to At-
lanta who will leave Dahlonega on
the 18th, that is all except those
who live nearer Gainesville. Capt.
Williams informs us that quite a
number will go through from
Union county in wagons, all of
whom will have a joyful time when
they meet together again.

but none that have accomplished more
for humanity than that sterling old home-
remedy, Brown's Iron Bitters. It cures
and relieves every disease of the blood,

wise, amounts to Brown's Iron Bitters.

Was in Fifty-Five Battles.

Last Saturday during the re-
union in Dahlonega of the Lumpkin
county veterans there was present
an old soldier who was in fifty-
five battles during the late war,
and has stood enough suffering to
kill a half a dozen men. He was
under Col. Wier Boyd's command.
Was in the 48 days and nights
fight at Vicksburg. Was without
food four days. Ate mule meat
without bread. Was in the fight
at Cumberland Gap and at Mission-
ary Ridge, Rocky Face Ridge and
Resaca. He and one other man
in Lumpkin county, being Lewis
Brady, who is also still alive,
fought old Joe Hooker's
corps by themselves for some time,
the army having retreated before
they knew it. This old soldier is
T. H. Worley, who now resides
near Dahlonega and still has the
old cap which he wore through all
these battles. He fought in the
battle at New Hope Church and
commanded the company on down
to Atlanta. Was in reserve at
Kennesaw Mountain amidst show-
ers of balls and shells and while in
the battle at Atlanta fell severely
wounded. He was also in the
force march through Kentucky
and back without food four days.

The Crew of a Sinking Ves-
sel Stabs Women.
On the 4th inst., when the
French passenger steamer Bour-
gogne collided with another ves-
sel and was going down with her
600 passengers the crew of the
ship stood by the life boats with
knives and bludgeons, braining
the women who advanced and stabbing
the women to the heart be-
fore throwing them over the deck
railings into the water.

The story of August Pourzi il-
lustrates the brutality of the scene:
He was in the water about half an
hour and attempted to get into the
boat. He was seized when he
managed to get half in, and thrown
back into the water. Again he
tried to enter the boat, but the
savages who manned it were
determined to keep him out. He
managed at last to get in and to
stay in. Clinging to the life line
of a boat not far away, he saw his
mother, and as if his trial were not
ended, he was forced to watch a
man shove her into the ocean with
an out. She never rose.

Persons troubled with diarrhoea
will be interested in the experience
of Mr. W. M. Bush, clerk of Ho-
tel Dorrance, Providence, R. I.
He says: "For several years I
have been almost a constant suf-
ferer from diarrhoea, the frequent
attacks completely prostrating me
and rendering me unfit for my du-
ties at this hotel. About two years
ago a traveling salesman kindly
gave me a small bottle of Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy. Much to my surprise
and delight its effects were im-
mediate. Whenever I felt symp-
toms of the disease I would fortify
myself against the attack with a few
doses of this valuable remedy.
The result has been very satisfac-
tory and almost complete relief
from the affliction." For sale by

Sufferings of Our Soldiers.

A correspondent of the New
York Sun, who is with the Ameri-
can army in Cuba, as they pushed
their way in front of Santiago,
gives this graphic description of
what our brave soldiers had to en-
dure:

No man who was not in the ter-
rible downpour of rain which
drenched the American army to
the skin this afternoon can under-
stand the suffering of our troops
and the heroism with which they
bear it.

Cavalrymen dismounted for the
first time in years, and infantry-
men from cool Michigan and
Massachusetts toiled hour after
hour along these so-called roads
and paths through the jungles of
cacti, poison vines and high grass
that cut like a razor, in blistering
sunlight that makes the sky-lines
of the distant hills shimmer and
waver before the eyes, while from
the stagnant pools strange, gray
mists float upward, and vultures,
with outstretched wings, look
greedily down from above.

The vegetation torn down and
trampled under foot by our troops
has fermented, and a horrible
sour breath arises from the earth.
Curious stretches steal from hid-
den places in the jungle.

Thousands of gigantic land
crabs, spotted with yellow and
red, wriggle and twist themselves
along the sides of the roads, with
leprous, white claws clicking vic-
iously, a ghastly, dreadful sight
to young soldiers fresh from New
York, Boston and Detroit. Ragged
Cubans slip noisily through the
undergrowth or sprawl under the
shade of huge cressamer trees
watching with childish pleasure
the steady onrush of their Ameri-
can defenders.

The heat is almost intolerable.
The sun is like a great yellow fur-
nace, torturing everything living
and turning everything dead into a
thousand mysterious forms of
terror.

If a newspaper man knew how
many kicks he receives behind his
back, he would adopt another
calling, remarked a man recently.
That man was mistaken. The
newspaper man who succeeds ex-
pects to be maligned by every
lawbreaker, swindler and hypocrite,
every carping critic and every
lover of notoriety who is ig-
nored. The editor who expects to
go through life without being mis-
represented and unjustly censured
should make arrangements to die
young.

functional activity, and this bears
with it the certainty of quick restor-
ation from sickness or accident. Dr.

dial and Blood Purifier gives pure,
rich blood and vitalizes and strenght-
ens the whole body. Price 50c and

A farmer killed an immense
chicken snake not long ago which
was found to have four eggs inside
with the eggs not crushed. The
eggs were speckled, and having a
curiosity to know what kind they
were he set them. Only two of
the eggs hatched and they hatched
guineas. It is said that nobody
within a mile of where the snake
was killed owned any guineas,
which showed that the snake must
have had a pretty wide range.

Well, really we might even take
Spain and swap her to England
for Canada.

"Lift Your Hats."

A correspondent of the New
York Sun tells a pretty story
about Capt. Jack Phillips and the
fight on Sunday.

It seems that after the Cristobal
Colon was dispatched, being the
last to succumb, the Oregon got
out her hand and the strains of
"The Star Spangled Banner" ech-
oed over the waves against the
Cuban hills. About that time
Commodore Scheley came along-
side the Texas from the Cristobal
Colon in his gig, called out cheeri-
ly, "It was a nice fight, Jack,
wasn't it?"

The veterans of the Texas lined
up and gave three hearty cheers
and a tiger for their old com-
mander-in-chief. Capt. Phillips called
all hands to the quarter deck, and
with bared head, thanked God for
the almost bloodless victory.

"I want to make public ac-
knowledgement here," he said,
"that I believe in God and the
Father Almighty. I want all you
officers and men to lift your hats
and from your hearts offer silent
thanks to the Almighty."

All hats were off. There was a
moment or two of absolute silence,
and then the overwrought feelings
of the ship's company relieved
themselves in three hearty cheers
for their beloved commander.

CUBA.

Perhaps many readers have not
thought of the location and size of
Cuba as compared to North Caro-
lina. Cuba lies directly south of
North Carolina, and is somewhat
longer from east to west than this
State. A line south from a point
slightly west of Chattanooga cuts
the western extremity of the
island while a line south from New
York city cuts the eastern exten-
sity. Havana is directly south of
Asheville and Santiago is almost
directly south of Cape Hatteras
the extreme eastern point of North
Carolina. As Santiago lies some-
what south of an eastern direction
from Havana, it is about 490 miles
from Santiago in a direct line to
Havana. Cuba is north of the
equator, and a short distance south
of the topic of Cancer, hence the
sun is now vertical over the north-
ern parts of the island at noon.

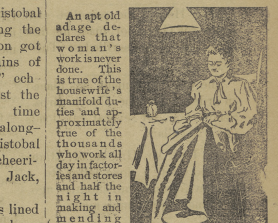

Our baby has been continually
troubled with colic and cholera
infantum since his birth, and all
that we could do for him did not
seem to give more than temporary
relief, until we tried Chamberlain's
Colic, Cholera and Diarrhoea Re-
medy. Since giving that remedy he
has not been troubled. We want
to give you this testimonial as an
evidence of our gratitude, not that
you need it to advertise your mer-
itorious remedy.—G. M. Law

Why is it? The average man
may be honest, truthful, just and
valuable in all his dealings with fel-
low men, but in many cases just
as soon as he has opposition for
political preferment he crawls
down from the high plane on
which he has always stood, and
stoops to downright misrepresent-
ation, mud-slinging, common ly-
ing, knowing too that he is hand-
ling a boomerang which, when
thrown, will come back to him
sooner or later with terrible and
destructive force.—Montezuma

WOMAN'S
WORK.

An apt old
adage de-
clares that
woman's
work is never
done. This
is true of the
housewife's
manifold du-
ties and ap-
proximately
true of the
thousands of
women who
work all day
in factor-
ies and stores
and at half
the night in
making and
mending their
own
clothes or sewing for others to patch out a
meagre income. Women who are too
much on their feet, or who are unable to
stand the strain of overwork and worry,
are peculiarly susceptible to the weak-
nesses and irregularities that are the bane
of womanhood. The symptoms of such
disorders are insufficient or excessive
menstruation, headache, backache, neu-
ralgia, nervous depression and ex-
treme nervousness. The use of morphine is
dangerous and examinations by male phys-
icians are painful and unpleasant. Brad-
field's Female Regulator, the
standard remedy for a quarter of a cen-
tury, will speedily and permanently cor-
rect the worst disorders of women. Brad-
field's Regulator is sold by druggists at
one dollar a bottle. Interesting and val-
uable books for women mailed free on

THE NUGGET.

DAHLONEGA, GA., JULY 15, 1898.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

Congress adjourned last week.

The Gainesville chautauqua was largely attended last week. Several were present from Dahlonega.

Senator Sagasta has tendered the resignation of the entire cabinet. Spain seems to be in bad shape.

John Asbury, a son of Capt. R. R. Asbury, of White county, lost his life in the first battle at Santiago.

J. R. Hogan, the populist candidate for Governor, made his first speech at Douglassville last Tuesday.

The war department has placed an order with The Conch Bros., Socin, Ga., for several car loads of horse collars.

The Rev. Mr. Gibson, of Atlanta, who wrote a love letter to a man's wife some four months ago, has gone to preaching again.

Hall county had another murder committed last week. Jack Smith was murdered under Lula bridge while fishing by some person who wanted his money.

Before the war began the expenses of the government were about \$1,000,000 a day. Now according to the figures of the government officials it is twice as much.

Four hundred and ten homing pigeons from the Belview club of Philadelphia were turned loose in Gainesville last Saturday. The owners of the pigeons wanted to make a record of twelve hours from Gainesville to Philadelphia.

The school commissioner of Fannin county was forced to fix the hours for opening and closing the schools. They must open at 8 and close at 4. This rule should be adopted in Lumpkin county. It's true teachers get small pay but when they agree to teach they should have some system to govern their schools.

It is believed that Fain, the democratic nominee for the legislature of White county will be very easily beaten by the populist candidate. He represented the county once but was afterwards arrested in an illicit distillery, so we are reliable informed. We don't believe the good people of White will favor electing a man to make laws who violates them himself. It is not very consistent however, if they do.

Last Saturday was certainly a very rainy day and there was no excuse for democratic farmers not being present at the rally. Their non attendance clearly showed that they did not want primaries and if they had been called we don't doubt whether a single member of the party would have succeeded in getting an office. As it is the republicans and populists will mostly vote mixed tickets. Otherwise they would not for if a populist or republican is not invited to eat at the first table he does not wish to dine, as but few of them favor being fed with a selected democratic spoon.

For the information of the veterans who wish to attend the reunion in Atlanta next week we clip the following in reference to board and lodging from the Ex-Confederate Messenger published in that city: Single meals can be had at from 25 cents up. Lodging from 25 cents to 50 cents a night. Board and lodging at private houses at 50 cents to \$1.00 a day. Hotels from \$1.50 a day up. Suitable arrangements have been made for caring for such veterans that are unable to afford the expense of boarding houses and hotels. For these sleeping quarters and a commissary department have been established at Piedmont Park. Those who wish to avail themselves of these privileges are requested to notify Dr. Amos Fox, chairman of the commissary department, by letter or in person on arrival.

Brief War Notes Taken From Each Paper Daily.

Friday.—The papers of to-day report everything quiet at the front. Lieut. Hobson and his crew have been exchanged which has caused much rejoicing among the Americans. He states that he was well treated. The lieutenant estimates about 4,000 troops at Santiago. It is believed that the Spaniards will surrender Santiago is why there is no fighting going on. Women and children are leaving the place by the hundreds. The wearers of silk and rags all walk out together.

Saturday.—Still no fighting. Gen. Pando, with his whole army, is at Manizillo. Their reinforcements at Santiago were 2,000 who got into the city before it was surrounded. Yellow fever prevails in Santiago and when the city is captured the soldiers will not be sent into the place in force. Camara's squadron has been ordered back to Spain and is on its way there now.

Sunday.—Truce has been extended by Gen. Shafter until noon today at which time the bombardment of the city will commence if it is not surrendered. Shafter has greatly strengthened his position. His big siege guns are now located on elevated places and his mortars and batteries well placed in commanding positions. Conditions at Guantanamo is reported to be most deplorable. Fifteen starve each day.

Monday.—Truce was declared at an end yesterday at noon and a Spanish battery opened on the American line at 4 o'clock when one of the American guns belched back the answer which soon silenced the Spanish guns. Toral offered to surrender the besieged city provided he was permitted to march away under arms and with flying colors and declared that he would fight to the last ditch unless the conditions were accepted. They were not accepted and the battle commenced.

Tuesday.—There is not much special war news of interest today. The fight was going on until a shot from the warships struck a prominent church in the heart of Santiago which was heavily stored with powder and ammunition, causing a tremendous explosion. When the warships ceased firing on account of most of them being

too far away to do much damage, and before Gen. Shafter had begun a land attack a flag of truce was seen coming from the city. The object of this is not known yet. 692 Spanish prisoners which partly compose Cervera's crew are now at Portsmouth, N. H., in the barracks. 235 wounded Americans have reached McPherson, nineteen commissioned officers being with the wounded. Eighteen paymasters will leave for Santiago with more than \$1,000,000 for the soldiers. Shafter now has about 24,000 troops at his command.

Wednesday.—Torral again refuses to make an unconditional surrender and the Santiagos will be shelled into submission at once. For some days the Americans have been strengthening their forces and advancing. Capt. Hist, commanding an expedition has succeeded in cutting the cable connecting Havana and Santiago. The service of 200 teamsters are wanted in Cuba. The war department has ordered the destruction of all submarine mines which now protect the harbor of the United States against the entry of the hostile ships as there is no danger now. Gen. Miles has reached Santiago.

Thursday.—Spanish truces were only intended to gain more time to the disadvantage of Americans and today's papers state that the bombs were to commence yesterday from both the army and the fleet.

According to advices Blanco is blue and tried to suicide when he learned beyond a doubt that Cervera's fleet had been annihilated.

Col. Price visits Atlanta today.

J. E. Meaders and family will arrive here from Swainsboro this week.

Mrs. Rose Ash's mill dam on Yahoola washed away Wednesday night.

Sheriff Nelms, of Fulton county recently received a fee of \$3,333 for selling the Austell building.

The Lumpkin county board of education has agreed for the old schools books to be used until the present fall term ends.

Miss Mattie Moore has returned from Jackson for the purpose of opening her school at Pleasant Ridge next Monday.

An important ruling has been made from the internal revenue department that is of interest to all banks and depositors. It is to the effect that depositors, instead of checking out money and having to stamp the check, may give the bank a receipt for the amount received without putting a stamp on the receipt.

SOME persons say it is natural for them to lose flesh during summer. But losing flesh is losing ground. Can you afford to approach another winter in this weakened condition?

Coughs and colds, weak throats and lungs, come quickest to those who are thin in flesh, to those easily chilled, to those who have poor circulation and feeble digestion.

Scott's Emulsion

of cod liver oil with hypophosphites does just as much good in summer as in winter. It makes flesh in August as well as April. You certainly need as strong nerves in July as in January. And your weak throat and lungs should be healed and strengthened without delay.

Don't Neglect Your Liver. Liver troubles quickly result in serious complications, and the man who neglects his liver has little regard for health. A bottle of Brown's Iron Bitters taken now and then will keep the liver in perfect order. If the disease has developed, Brown's Iron Bitters will cure it permanently. Strength and vitality will always follow its use. Brown's Iron Bitters is sold by all dealers.

Local News.

To be safe Judge Tate put a two cents stamp on all county orders issued by him until he could hear from Collector Kacker in Atlanta. A recent letter from the Collector states that the law does not require it.

"Observer" should not grumble because the council made a change in the marshalship of the town for they paid the outgoing marshal his cost in cases against defendants whose fines have not been collected and some that never will be.

If you want to see something nice, good and fine just from market, call at the store of Moore & McGuire, who have just received a fine lot of dry goods, notions, &c. They also have a fine lot of ladies' capes of the latest fashion, at prices to suit everybody.

The wide awake firm of Moore & McGuire have a lot of ladies' shoes in numbers 3, 3 1-2 and 4s that are offered for less than cost. Also a lot of childrens and misses shoes in odd numbers. Call at once as they are anxious to close them out to give place for a new stock.

One of Uncle Sam's Deputy Collectors was round this week inspecting the goods of tobacco dealers to see if any had in stock as much as a thousand pounds but we don't suppose that he found any such dealers here for they are aware that those carrying that much in stock have to pay a tax of six cents per pound for war purposes.

The credit system seems to be on the increase in our town. A man can now fight on a credit. If he is caught fighting his neighbor or disturbs the town by being intoxicated all he has to do is to go before the Mayor, be fined and then give the marshal a note marked due in 30 or 60 days with some one as security, some of whom it will be harder to get the money out of than the principal. This turns it into a civil suit because the note has been taken for the fine and after awhile when most of these notes fall due the council will have to pay some lawyer a \$10 fee to undertake to get a \$1 fine. This is one reason why there is no decrease in mischief here.

Last Saturday afternoon as Arveta Sullins and Frank Crisson were returning home from Dahlonega on a wagon in company with John Barker, Ed and Dolph Sullins, Frank Crisson was dangerously stabbed just below the collar bone by Arveta Sullins near the house of "Uncle" Wash Adams' about three miles from town. Crisson was moved to the residence of Uncle Wash Adams while Dr. Wheelchel was summoned who, after examining the wound found it to be about one inch in length through which he could plainly see the top of the lungs and pronounced it to be very dangerous. Sullins passed on with his father, uncle and brother-in-law and has not been seen since. The reports concerning the origin of the difficulty conflict, but both were under the influence of liquor. The first report that reached town was that Crisson was trying to shoot Sullins' steers and jumped on old man Sullins when Arveta stabbed him. The second one was that Barker and Arveta were seen walking along behind a few steps from the wagon on which Crisson was seated when Sullins walked up as fast as he could go without running and made three licks at Crisson one of which took effect, without even saying a word. This statement is corroborated by the wounded man who also claims that he had \$46 on his person before he was injured and could not find it afterwards, neither was there any pistol found on or about Crisson. There will have to be a judicial investigation made before the facts are known in the case. Crisson was carried in a boat down the river as far as Wes Hulsey's, within a mile of his home last Tuesday and Sullins has not been found by the officers yet. At this writing Crisson is improving as fast as could be expected and it is believed now that he will recover.

John Fields, Jr., of Chestnut district, who was in town, yesterday reports some very bad conduct last Tuesday by John Downs, Deputy Marshal and H. R. King and Ben Allison, who visited that section from Blairsville to perform some official work last Tuesday morning. They found in an illicit distillery Ben Swaim, Ben Self and a son of Kenny Porter, who they arrested and while the prisoners were handcuffed the officers abused them, threw fire on them and struck them with boards. Then the officials got up a row between themselves and shot at each other several times but their drunken condition prevented them from being good marksmen and no one was hurt. Then they left the still in operation and carried the prisoners to Blairsville, a mile or so farther than it is to Dahlonega, where they were put in jail without any warrant and where they will have to remain without being able to give bond until one can be sent to Atlanta and approved by the authorities there. They are a nice set of arresting officers and it is a great pity that there balls didn't take effect when they were shooting at each other.

The heavy rains this week have been very destructive to both corn and land on the Chestatee river.

If you want to find out what is going on send a \$1 for the NUGGET.

THE NUGGET.

DAHLONEGA, GA., JULY 15, 1898.

Overcoats were brought into use this week.

The \$65 Range Stove man is in town this week.

Prof. Joe Boyd, of Young Harris, is in the city.

Capt. Hall is having the Clark House dressed up in a new suit of paint.

Pants and overalls of all sorts and sizes and prices at Moore & McGuire's.

We find among the names on the Hall House register this week Geo. T. Simpson, of St. Louis.

Misses Ethel and Estelle Harris have returned home after an absence of some weeks off on a visit.

Steel traps at Moore & McGuire's. Also stove backs that will fit any size stove, and stove grates.

Capt. Hall has every carpenter in town employed this week except one. Besides he has several from the country.

Col. Charters attended the Georgia Bar Association in Atlanta last week and at this writing is absent on a general electioneering tour.

Logan Campbell, Mat Woods and Henry Roberts, three practical miners of much experience, are operating the Findley now under a lease.

A new lot of mens and boys pants at Anderson & Jones. Also a nice line of mens and boys hats. Any one needing any turnip seeds can get two table spoonfuls here for five cents.

Col. J. M. Bishop passed through Dahlonega this week en route for Cleveland accompanied by K. M. Bryson and brother and A. M. Edwards, who went before Judge Kimsey for examination for admission to the bar.

Prof. Burnard Ansted, the new professor for the business department of the N. G. A. College, has already arrived together with his lady and will occupy the Meadors house adjoining E. W. Strickland's premises.

One of our patrons told us the other day that he made enquiry to see what paper that contained his local notices was doing him the most good when his customers would come in and ask to see an article which they "saw in the paper." He found the Nugget to be on top.

W. A. Hunt, of Young Harris, was registered at the Hall House first of the week together with J. R. Wood and J. L. Smith, Princeton, Ind., and C. C. Kuhn, Fort Branch, Ind. These gentlemen are interested in mining in Union and were over to see Capt. Hall about some machinery.

A married man, who is a member of the church, was found at a few house last Saturday night in company with his boy who is yet in his teens, together with ten other men, and the old man seemed to be the ring master of the occasion. How is this for high? No use in sending any more money off for the purpose of teaching the heathen how to act.

Mayor Price is becoming more sympathetic with evil doers as the number increases, especially wife whippers. About four or five weeks ago a white man who had brushed out his wife half a mile from town, 11 at night, because she refused to leave certain male company and go home to her children, came up and plead guilty and was fined \$3 and cost. This week a negro man in town whipped his wife and ran her out of her house from her children and around the building until the distressed woman's screams could be heard near half a mile, disturbing the whole neighborhood, who was arrested by the marshal and also plead guilty. He was fined \$1 and cost. We say without fear of contradiction that this is a very careless way to deal out justice.

J. S. Drake, of New York, spent several days here this week in inspecting certain mining property.

Rev. W. H. Parks and lady are absent on a few weeks visit to relatives and friends in adjoining counties.

We have added a number of new subscribers to our list since its last issue. Come right along. There is room for others.

Dahlonega is about to loose all of her cats. Some unknown disease has killed near fifty within the past month.

Candidates, if you want to give the voters anything send them the Nugget. It will be of much more benefit to them than liquor.

H. H. Gordon, son of General Gordon wrote last week that he would be up shortly recruiting for the Second Georgia Volunteers now located at Tampa.

Geo. Burns, of New Bridge, requests us to say that he will not support any candidate who uses liquor if he knows it. Let others come forward. Don't talk for temperance and vote for liquor.

The abundance of rain for the last few days has enabled them to start up the Yahoola mine again this week. Recently the lessee struck the rich vein which was worked profitably by W. H. McAfee many years ago.

Mr. Hayden, who recently had a difficulty with "Shotgun" Walker, says that he didn't go "home sweet home" at a quick rate of speed as was reported last week, but took his time as he never run from a man in his life.

Virge Moose had another streak of good luck last Friday while working at the Ivey he picked up a nugget which weighed fourteen pennyweights and twenty grains. This beautiful piece of gold realized him one dollar per dwt. and was purchased by The Hall Mds Co.

Ben Head, who resides in the eastern portion of the county, worked a half day last Sunday making cabbage hills before he found out that it was the Lord's day. His hoe got dull and when he went over to a neighbors to get it sharpened was convinced of his mistake.

If any of our new subscribers get miffed at anything they may see in the Nugget and do not want to continue reading the paper let them come and have their money refunded. When we started out we proposed to give the news and we are going to do so. The high and the low will be weighed on our scales alike.

We had the pleasure of meeting with W. B. Langford last week who came up on a visit from Watkinsville to his daughter Mrs. A. W. Meadors. It is Mr. Langford's first visit to our town but we hope that it will not be his last, as he has every appearance of being a clever man, such as we like to come to see us whenever it is convenient and their pleasure to do so.

We received more than one letter last week from parties desiring us to send them the Nugget twelve months and wait until the end of the time for our money. We cannot do this. If we could get paper, ink and our rations on twelve months time we could afford to do it. Can't you see? If you have not got a dollar send a half and if you have not got a half send a quarter. A little energy will enable you to be able to read the Nugget every week.

J. S. Chester will deliver a Sunday School lecture at Hightower church on the first Sunday in August. Mr. Chester used to be a blockader and followed the business for eight years, but long since has seen the folly of his ways and quit the business. He says he is trying to do right now and would not engage in the liquor traffic again for no amount of money. It's a great pity that others can't be convinced that they are doing wrong before it is too late and follow the example of this man.

Logan Campbell was on the sick list several days this week.

Miss May Reese left last Monday to spend some time in Atlanta and Covington.

We have had several cool days this week rendering fires very comfortable.

F. J. Williams, one of the candidates for sheriff of Union county, was over on a short visit this week.

Rev. W. H. Cooper and family left Monday for a two weeks visit to relatives in Hall and Banks counties.

Miss Maud Horton, after remaining some time in Dahlonega returned to her home in Atlanta last Monday.

Mr. and Mrs. George Marlow left Tuesday to be gone several days across the mountain on a pleasure trip.

Miss Pearl Goodluck, after spending several days in Dahlonega with her aunt, Mrs. B. R. Meadors, has returned to her home in Hall county.

Last Sunday night one week ago preacher J. W. West was rocked by some unknown parties near Jack Ash's barn while he was returning home from church.

We were told that some parties at the Baptist church last Sunday night behaved so badly that the next grand jury will be requested to investigate their conduct.

We are informed that William Duncan, an old Auraria boy who enlisted in the army some eighteen months ago, was recently killed in Louisiana while in a fight with a man.

James Walden of Yahoola district had splendid luck in hunting last week. He caught three foxes, killed one ratter, 25 squirrels and five ground hogs. Good for a weeks hunt.

Little Jim Harbison was painfully hurt on last Sunday afternoon by turning a heavy stick of timber over on one of his feet, in front of the residence of B. R. Meadors, which may cause the little fellow to be a cripple for life.

The guests at Porter Springs have already reached the 125 note and still coming. Col. Farrow, the proprietor, stays at Gainesville and there is no danger of guests on their way to Porter being side tracked down there this year by any misrepresentations.

We regret to learn of the death of Mrs. Linny Hutchinson, mother of our esteemed friend John Hutchinson, which occurred near Auraria last Saturday. The deceased was a kind old lady, one that was loved and respected by the whole community in which she lived. Mrs. Hutchinson was one of the oldest inhabitants of our county, being between 85 and 90 years of age, so we are informed.

Last Tuesday morning at 5:30 o'clock the citizens residing in the suburbs of the northern portion of the town heard a strange and loud noise which caused them to run out of their houses so as to ascertain what it meant. Some thought that maybe it was Jerry Mingo, the Spaniard who resides in White county grieving over the loss of Cevera's fleet who might be on his way to Santiago to see his brother, while others believed it to be the bear man approaching town coming up the Wimpy mill road blowing his bagpipe so as to let the citizens know that he was coming. But they soon found out when they saw Izzie Anderson, col. come running out of her house making a loud and distressing noise, that it was neither Jerry Mingo nor the bear man. It was Charlie, the woman's husband, who caused all this racket. For some time he has had a carbuncle on his hand and when he thinks it ought to discharge its core he closes up his fist and lets it on Izzie. This time he had increased his licks which caused the distressed woman to go for the town marshal. An outlay of \$3 from Charlie was the result.

Prof. O. Palmour, of Dahlonega, was selected as the expert at Dawsonville last week.

Moore & McGuire will have a large supply of the new school books recently adopted by the county board of education in a few days.

Dr. Vandergriff, the new physician at Porter Springs, is making a favorable impression with all the people of that community. His charges are reasonable which is causing him to get a good practice.

The college dormitory was completed last week but has not been received yet. The committee claims that it is constructed of second and third grade lumber when the specifications call for first grade lumber.

The people of Chestatee district don't have to go to Cuba in order to get into a fight as four different battles occurred up there within the past few days, between the following persons: Fight No. 1, Joe Jarrard and John Self; 2, John Anderson and West White; 3, Bill Spencer, Jr. and James Anderson; 4, Blind John Hester and West White.

A blockader appeared almost in the heart of our town while after dark Saturday night with his face all blacked up looking like a negro, having two or three jugs of liquor which he dealt out to all lovers of the juice that were present, when he disappeared and was seen no more, but next day the effects of his visit could be clearly seen by several of his customers who had taken on so much that it had effected both their brains and legs.

Fred Price of Dahlonega, who was recently appointed second lieutenant at a salary of \$1,500 returned home last Friday after being gone some days standing the examination. He passed all right and will be ordered to the front passes upon the appointment. If he does not get killed he can save some money at \$1,500 per annum. This makes about seven of the old Dahlonega college boys that have been recognized by Uncle Sam and given good positions.

Uncle Elisha Trammell, an aged miner who was up from Auraria last Saturday is 72 years old. He was born down at the mouth of Cane Creek residing near there ever since. He used to come to Dahlonega when it had a little log court house and the place where the square now is was in the woods with big old logs lying about over the ground. Game and gold were both plentiful here then and the red man was at home until he had to be forced off to another country and give up his valuable lands to the white settlers.

Mr. Milton Smith, a former student of the N. G. A. College, now of Anniston, Ala., paid our town a pleasant visit this week, where he met with many of his old friends who are always glad to see him. He still owns and runs the Hot Blast in that city. Mr. Smith is small in size but wields a mighty pen whose able editorials are read with much interest by hundreds of the people of Alabama and adjoining states. Mr. Smith departed for home last Tuesday, accompanied by his wife and children who have been here several weeks.

It seems from the Signal that some one is dissatisfied with the actions of the town council in its manner of disposing of the marshal and selecting another, and suggests that all the members withdraw and cause another election and another new marshal in order to please the people. It is not necessary to go to all this trouble. If the present marshal does not discharge his duties (and we have no doubt of his failing to do so) let them select another and keep on and on if necessary until they get one that will. This will please the people. A large majority of our citizens are not dissatisfied. It is a few individuals who care more for their own interests than the towns. This is causing a little kick.

A little child of Aaron Stephens, colored, died last Saturday.

When you notice a cross mark on your paper, come to see us.

Bill Marr, of Porter Springs district, is speaking of making the race for county treasurer.

Assistant postmaster Price is having his building below the old Kilgo house, repaired and put in good shape.

Sheriff Brookshier contemplates the erection at an early day of a two story residence on "the corner" of his property opposite Prof. Gail lards.

Bearden's bridge has been fastened with ropes tied to trees until the necessary timber can be delivered to repair it. Judge Tate examined it on Tuesday and reports it in bad condition.

Capt. Hall is spending a good deal of money on the old Besser House. An average of 10 men have been working on it for several weeks and when they get through and it receives the necessary paint it will have the appearance of a new building.

Wash Satterfield has been engaged in mining "on his own hook" on the Hand property for some time. Last Saturday night he banded us a \$1 bill for the Nugget in advance for twelve months and had plenty left, which shows that his mine is paying.

Wm. Waters, who was down from Nimbalew last Sunday, said everything was moving along in good shape up his way, the country being in a very prosperous condition. He, in order to keep pace with his neighbors, is building a large comfortable residence. They have no stock law up there is one cause of their prosperity.

Let every candidate in the county send in \$3 and secure a seat in the Nugget's band wagon with the rest of the boys. It will carry you the most conspicuous routes in the country at a high rate of speed. It is cheap, comfortable and a better way than walking. A candidate who is not willing to comply with golden rule in this respect cannot expect many favors of the one who drives it.

One fellow in Lumpkin county, who says that he never subscribed for a paper in his life, asks us the war news every time he sees us. Of course we take great pleasure in telling him and sit right down, even if it is in the road, and relate the whole thing to him with as much interest as a preacher does in telling his congregation about the Lord whose members are out of chicken meat and are behind with their dues.

Col. Price, who is a member of the board of education and takes great interest in school affairs, informs us that a three months school will be taught in Dahlonega before the year ends, either under the local school system of our town or by the direction of the county board of education. The town trustees are working as fast as possible to have the school buildings completed time enough to have them occupied this year but if they see that they can't succeed in time the children will get the benefit of the money intended for them before the new year rolls round.

The old miners of Auraria district were certainly in town last Saturday. We believe Uncle Mar Edmonson stood head in age. While in conversation with the old man he said that he had dug more gold than we could pull on a wagon and we have no right to dispute it. Bony Tank, Elisha Trammell, Dave Anderson, Jeffrey Cannon and likely other old Auraria gold diggers were here. Then came Wash Adams from another course who discovered the celebrated Boly Fields vein about half a century ago, and who has worked in the mines all his life. It was a regular reunion among the oldest gold diggers of Lumpkin county. But strange to say that they are all poor. The fruits of their labor having been reaped by other men.

Yesterday morning our office neighbor, Aunt Linda Stephens, pitched in on her grand daughter causing her to let out in a musical tone like she was at camp meeting.

A sufficient amount of liquor was brought down from the mountains last Sunday afternoon to drive the bad feelings away from those who had indulged too freely the day before.

Those days a man has to die before anything good is said about him. Maybe if it was reversed and more good acts of men were mentioned before death there would not be so many suicides committed.

James Tate, P. M. at Gates was down to see his relatives last Sunday. Jim is going to leave for Tennessee in a few days to seek a new home, but Gates post office will not be discontinued as some believed it would.

You rich man, who borrows the poor man's Nugget every week to read, don't you feel bad about it? Don't have it said that the poor fellow has to furnish you your reading matter but send in a dollar and get a paper of your own.

The presiding elder returned from Auraria Saturday afternoon where he had been "to attend" the quarterly meeting. There was no preaching—only transacted the business part of the meeting. A good sermon might have saved one or two souls but they preferred collecting up the money and letting the souls go.

Col. J. W. H. Underwood, of Cleveland, the democratic candidate for the Senate, was down to see us all last Saturday. He has no opponent yet but is moving around getting acquainted with all who are old enough to drop a ticket in the box. The populists of his county will meet on the 23rd and put out a candidate. We have no idea who it will be but it will have to be a very strong man to keep up with the Colonel for he is red headed which enables him to travel of a night as well as in day time.

If there is any other candidate in Lumpkin county that wishes to gain an office without the use of liquor let him make a proposition to his opponent to this effect and then if he refuses send us his name and we will tell the people who favors flooding our county with liquor, bringing about the distress that we have mentioned elsewhere, for the sake of an office. Then if any one obligates himself not to use it directly or indirectly, and afterwards does so, also send in his name and we will make it convenient to give it a conspicuous place in our columns.

Only fourteen persons visited Mechanicsville Park Saturday night owing to the inclement weather we suppose. One of the managers of this desirable resort made herself absent awhile after nightfall and the crowd was most too large for the one who was left in charge of the premises to show round. On Sunday some of the boys made another visit and tore down and cut up the window curtains of the keepers—Madam Rony Adams and Annie Jones, who left out for Gainesville at ten o'clock that night and the park is closed to all visitors for the season to the delight of the law abiding citizens of our town.

Last Saturday certain candidates who were not interested in the convention, treated out some five or six gallons of liquor which caused a good deal of reeling and winding about in our town, resulting in one man being stabbed and old gray headed men to fall about in the mud as they returned to their homes in the country. And still you say by your actions that you are not opposed to these candidates who are feeding the courts, keeping up taxes, making widows and orphans and causing misery and distress in our land. Favor putting men into office whose duty it is to handle violators of the law and keep the peace that are creating trouble themselves! How do you expect the law enforced under such circumstances?

Composed By an Auraria Lady.

The following appropriate song,
handed us by Rev. J. B. Brown
was composed by an Auraria lady
just after the war, which bears the
heading of "A Song for the White
Men of Lumpkin".
The contest for supremacy,
The struggle is today;
Then come, ye boys of Lumpkin,
Come up, without delay!
Yes, all who love old Georgia,
And her interest would promote,
Come up by tens and thousands
and for John Gordon vote.

Yes, all who wish to overthrow
The acts that will enslave,
Your helpless children say!
And ever will heath the sun,
Oh! come and take advice;
And do with for Christy every one,
For Landrum and Bill Price.

Come up! come up! unto the polls!
Come, ere it be too late;
And vote for true and honest men,
To guide the ship of State;
Then you'll have just and whole-
some laws.

The wrong and strife will cease;
Trade and business soon revive;
Neath justice, right and peace.

Ye! from the Hills and the rivers
The Mines, Auraria all!
Come up to the ballot box,
At duty's warning call.
Yes, all who love old Georgia,
And her interest would promote,
For Christy, Landrum, Price,
And General Gordon vote!

Hurrah for Gen. Gordon!
Hurrah for Christy too,
Hurrah Landrum and for Price,
We know that they will do.
And hurrah! for dear old Lumpkin
Oh! what a glorious sight,
To see her marching up to vote,
The ticket that is right.

Oh come ye mountain boys!
Yes, come up one and all!
Come up to the polls and vote,
At duty's warning call.
Yes! all who love old Georgia,
And her interest would promote,
Will for Christy, Landrum, Price,
And Gen. Gordon vote.

Boy Character.

It is the greatest delusion in the
world for a boy to get the idea that
his life is of no consequence, and that
the character of it will not be
noticed. A manly, truthful boy
will shine like a star in any com-
munity. A boy may possess as
much of noble character as a man.
He may so speak and live the truth
that there shall be no discount on
his words. And there are such
noble, Christian boys, and wider
and deeper than they are apt to
think is their influence. They are
the king boys among their fellows,
having an immense influence for
good, and loved and respected be-
cause of the simple fact of living
the truth.

Persons troubled with diarrhoea
will be interested in the experience
of Mr. W. M. Bush, clerk of Hot-
el Dorrance, Providence, R. I.
He says: "For several years I
have been almost a constant suf-
ferer from diarrhoea, the frequent
attacks completely prostrating me
and rendering me unfit for my du-
ties at this hotel. About two years
ago a traveling salesman kindly
gave me a small bottle of Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy. Much to my surprise
and delight its effects were im-
mediate. Whenever I felt symptoms
of the disease I would fortify my-
self against the attack with a few
drops of this valuable remedy.
The result has been very satisfac-
tory and almost complete relief
from the affliction." For sale by

Notes From Randa.

Our people organized a Sunday
School at Nimberville church last
Sunday was a week ago. It is
rather late in the season to begin a
summer Sunday School, and seems
that we have been a little careless
about the matter but we hope that
some will be accomplished yet.

Jacob Cochran and Virgil Hicks
have opened up their schools—the
former at Nimberville and the latter
at Noonday, and the prospect
for a large attendance is good.

We notice from the Nugget that
J. H. Moore and G. C. Wallace,
who are the opposing candidates
for clerk of the Superior Court
have agreed not to use any whis-
key in their campaign. It is the
best thing that they could do. We
do wish that both men could be
elected to good offices, for such
men are fit to hold office. Oh,
what a pity but that all others
would follow their example, and
stop buying up souls for the devil.
Buying mother's sons over into sin
and shame, and buying poor wo-
men's husbands into degradation,
shame and the prison, and heaping
trouble upon their hearts by the
ton.

Happiest and Saddest.

To a woman marriage is at once
the happiest and saddest event of
her life. So says a thoughtful
writer. It is the promise of future
bliss, built on the death of all present
enjoyment. She quits her home
her parents, her companions—
everything on which she has hitherto
depended for comfort, for af-
fection, for kindness, for pleasure.
The parents by whose advice she
has been guided, the sister to whom
she has dared impart every con-
fession of thought and feeling, the
brother who has played with her,
by turns the counselor of the
younger children to whom she has
been the mother and the playmate
—all are to be forgotten at one
fell stroke.

Every tie is loosened, the spring
of every hope and action is changed,
and yet she flies with joy into the
untrodden paths before her.
Buoyed up by the confidence of re-
quired love, she bids a fond and
graceful adieu to the life that is
past, and turns with excited hopes
and joyous anticipations of the
anticipations of the happiness to
come. Woe to the man who can
blight such fair hopes—who would
destroy the confidence which love
has inspired.

tion from sickness or accident. Dr.

ens the whole body. Price 50c and

The authorities in Washington
have come to the conclusion that
the insurgent force in Cuba can
not be relied upon to give any
material aid to Uncle Sam in the
prosecution of the war. They seem
to be indifferent and will not fight
except in a sort of bushwhacking
style. They are a useless lot of
people just now.

many wonderful discoveries in medicine,
but none that have accomplished more

The Tale of the Candidate.

Behold the end draweth nigh
and the candidate quakes and
trembles. He that has eyes to see
may behold the smiling together
of his knees, and he that has ears
to hear may discern the mighty
rushing together thereof.

He riseth at the crowing of the
cock and taketh to the woods, but
comfort he findeth not there.

He goeth forth as a sower to sow
seed, but some fall by the wayside
and are driven as chaff before the
wind. Others fall on stony places
and are the scarcely peep from the
ground until they are nipped in the
bud—so soon doth the primary
come.

He wrappeth his bottle not in a
napkin, but buries it in the deep
recesses of his abdomen. He is
seen by the prohibitionist and hi-
ch for the rocks and the moun-
tains.

Yes, he would reap where he
had not sown, but findeth an ad-
versary in his path. He if a man
of toilsome days, is mightily ac-
cused, and lo! he is altogether
miserable.

He annoieth the records of his
past deeds with the oil of reason-
able excuses, and teacheth that
charity hideth a multitude of
faults.

He goeth forth as a goat to the
public "lick-log," and the dew of
the night rests upon his locks at
rising sun.

He standeth upon the housesteps
at morn, and great is his procla-
mation of his innocence; but the
people hear him not and his speech
profiteth him nothing.

He replenisheth the meal-tub of
the widow, and jostleth her off
spring on his uttermost knee-tops.
In trouble he is the friend of the
oppressed; moreover he stieeth
closer than a brother.

He vanetheth not himself, is no
longer puffed up; but saluteth
his neighbors from the street cor-
ners. In the midst of wicked and
perverse opponents he standeth
the preserve and unfailing friend.

He hopeth all things; believeth
all things, endureth all things.
Verily, verily, he is with you even
unto the end of the campaign,
when he shall behold the hand-
writing on the wall and hear the
plaudits: "Come up higher," or
his doom, "depart into political
darkness prepared for the defeated
candidates."—Newman Herald.

Our baby has been continually
troubled with colic and cholera
infantum since his birth, and all
that we could do for him did not

medy. Since giving that remedy he
has not been troubled. We want
to give you this testimonial as an
evidence of our gratitude, not that
you need it to advertise your mer-
itorious remedy.—G. M. Law

Do not contradict your friend,
neighbor, or companion every time
you think he is wrong; let it pass;
it is of little or no consequence, is
fraught with no danger, and your
contradiction or criticism may only
be a desire on your part to exhibit
a self-assumed superior knowledge.

Pluck in Women.

One of the most admirable at-
tributes that a woman can possess,
according to masculine views, is
pluck. You feel that a man has
sincere admiration for one of the
opposite sex when he says with an
honest ring in his voice: "She is
a plucky little woman." And he
does all he can to encourage her
and make the burden less heavy to
carry, for if the Lord helps them
that help themselves it is equally
true that mankind follows the
high example to the letter.

When a woman is gritty she is
thoroughly so, and keeps up under
trying difficulties, fighting off men-
tal and bodily ills which, without
meaning anything detrimental to
the stronger sex, we must ad-
perentially, would cause a man to
succumb at the outset. She strug-
gles along, and before the world is
brave and cheerful, making light
of the worries that are in reality
eating out her very soul.

But when the necessity for
wearing the mask is laid aside and
she can hide away in some little
corner where naught but affection
and tenderness can enter, what is
she then? A woman through and
through, helpless, clinging, and
without a vestige of those go-ahead
qualities that have given her the
reputation for pluck. Woman's
nature doesn't change, even though
the need of money or the desire
for fame urges her into the hurry
and worry of that side of life, so
different from the encircling pro-
tection.

Little Things of Life.

Why is it that we so easily for-
get that the little things in life are
what make it easy or hard? A
few pleasant words, a warm hand
clasp, a cordial letter, are simple
things, but they are mighty in
their influence on the lives of those
about us, adding a ray of hope to
many disconsolate hearts, giving
a bit of courage to disappointed,
weary ones and helping to make
our own lives sweeter at the same
time. Few people realize how
much the little attentions of every-
day life mean to their associates in
the home, the church, the business
place. It is generally a lack of
consideration which makes one for-
get the tiny pleasures, but lack of
consideration is really one form
of selfishness, and selfishness is not
considered a desirable quality.
Remember that the little things in
life, either good or bad, count for
more with those we love than we
ever know, and we should be
watchful of our action and our
words.

Many persons suffer from disor-
ders in the kidneys and bladder
without knowing what is the matter
with them. They should know that
disorders in those organs if allowed
to remain will result fatally. Dr. J.
H. McLean's Liver and Kidney Balm
will restore healthy functional
activity and thus eradicate the
disease. Price \$1.00 a bottle. At
Moore McGuire's.

A minister annoyed by tobacco
chewing, thus spoke to his con-
gregation: "Take your quid of
tobacco out on entering the house
of God, and gently lay it on the
outer edge of the sidewalk or fence.
It will positively be there when
you come out, for a rat will not
take it, a dog will not take it,
neither will a hog, and you are
certain of your quid when you go
out after it." Now the filthiest
vermin on earth would touch it.
It would even kill fleas on a dog's

Valuable to Women.
Especially valuable to women is Brown's
Iron Bitters. Backache, vanities, headache
disappears, strength takes the place of
weakness, and the glow of health readily
comes to the pallid cheek when this won-
derful remedy is taken. For such children
or overworked men it has no equal. No home
should be without this famous remedy.
Brown's Iron Bitters is sold by all dealers.

Priceless Pain

"If a price can be placed on pain, 'Mother's
Friend' is worth its weight in gold as an anal-
gesic. My wife suffered more in ten minutes with
either of our two children than we could stand
together with her last, having previously used
four bottles of 'Mother's Friend.' It was blessing
to any one expecting to become a mother," says
a customer.

Thus writes Henderson Dale, Druggist,
of Carmi, Ill., to the Headline Regulator
Company of Atlanta, Ga., the proprietors
and manufacturers of "Mother's
Friend." This successful remedy is not
one of the many patent medicines ad-
vertised to do unreasonable things, but a
scientifically prepared liniment especially
effective in relieving strength and elasticity
to those parts of woman's organism which
bear the heaviest strains of childbirth.
The liniment may be used at any and
all times during pregnancy up to the
very hour of confinement. The earlier it
is begun, and the longer used, the more
perfect will be the result, but it has been
used during the last month only with
great benefit and success.

It not only shortens labor and lessens
the pain attending it, but greatly dimin-
ishes the danger to life of both mother
and child, and leaves the mother in a con-
dition more favorable to speedy recovery.

"Mother's Friend" is sold by druggists
at \$1.00, or sent by express on receipt of
price.

An Old Idea.

Every day strengthens the belief of en-
lightened physicians that impure blood is the
cause of the majority of our diseases.
Twenty years ago this theory was used
as a basis for the formula of Brown's Iron
Bitters. It was a revolutionary theory, and
by this famous old household remedy are
sufficient to prove that the theory is correct.
Brown's Iron Bitters is sold by all dealers.

THE NUGGET.

DAHLONEGA, GA., JULY 22, 1898.

Entered at the Dahlonega, Ga., P. O. as Second Class Matter.

Fortunately the yellow fever at Santiago is of a mild type.

McPherson hospital received 90 more wounded soldiers Friday night.

Rev. Benj. Ingram, died at his home in Union county last Saturday aged about 70.

The populists met in Jackson county last week and put out a full ticket for county officers.

It is reported that small pox has broken out in Jackson, Clay and Laurel counties, Kentucky.

Three hundred men have reached Havana from Chili who have volunteered to fight for Spain.

A barrel of lard sold in Havana a few days ago for \$300. Grim famine seems to be holding full sway.

The populists of Cherokee county have nominated a full set of officers and a senator and representative.

The Gainesville News is a hustler and the other papers will have to get a move on them or they will be left.

It turns out that Z. T. Suddeth accidentally killed himself in Hall county and not murdered as was at first reported.

Governor Atkinson returned from New York last week where he had been to borrow \$200,000 for the State at 2 1/2 per cent.

Minister Sagasta in an interview admits the utter hopelessness of Spain's position and indicates that the end of the present war is near at hand.

Col. William Jennings Bryan's command, the Third volunteer regiment of Nebraska, has received orders from the war department to move at once to Jacksonville, and it is gone.

Thomas M. Bell, an old White county boy, was nominated clerk of the Superior Court of Hall county last week. A. J. Munday, who has held the office for years, was re-nominated.

Rev. Greenbury Hall, who died in Dawson county some days ago was the oldest minister in this whole mountain country. He was 78 years of age and had been preaching since 1850.

We fear that the yellow fever will be more destructive to the American troops now than the looting balls of the Spaniards. Saturdays papers reported twenty-three new cases among the American troops and three deaths.

Several cases of yellow fever at Siboney will be sent to Ft. Monroe. It is feared that there are at least one hundred suspicious cases. The soldiers are wet for hours at a time in the trenches and this gives the disease a better chance to seize hold of them.

Maj. Thomas O. Sommers and twenty-five other immunes have gone from Camp Alger, Va., to Cuba to take charge of the yellow fever patients. Maj. Sommers is an expert in the matter of yellow fever and malarial fevers. He treated and saved 1,500 patients during the epidemic of 1878-9.

Something over \$200,000 will be paid by the government as "head money" to the officers and sailors who destroyed Cervera's fleet. This is according to law which provides payment of \$106 a head, or every man on the ships of an enemy when these ships are destroyed. A few of the officers will receive pretty good fortunes.

The subscriptions to the new 3 per cent war loan of \$200,000,000, which closed at the 14th inst., including the offers made by syndicates amount to \$1,200,000,000 or six times the amount of the issue. Subscriptions of individuals will more than absorb the amount of bonds. The law does not allow banks or syndicates any finger in the pie and they will all be left.

War News.

Gen. Torrell has at last surrendered Santiago.

The territory makes about 5,000 square miles, and the Spanish soldiers to be sent to Spain is estimated at about 10,000.

Gen. Torrell first proposed only to surrender by the Americans carrying his soldiers together with their guns back to Spain. The latter was objected to by President McKinley, and Gen. Shafter was ordered to take the city without delay and the General then surrendered all.

During the siege a great iron-clad squadron has been destroyed and nearly a thousand Spanish soldiers have died in the trenches of Santiago. About 250 American soldiers have been killed and in round numbers 2,000 have been sent to the hospitals, from wounds, fever and other ailments.

Gen. Shafter made this announcement to the war department on the 17th: "I have the honor to announce that the American flag has been this instant, 12 noon hoisted over the house of the civil government in the city of Santiago. An immense concourse of people present. A squad of cavalry and a regiment of infantry presenting arms and band playing national airs. Light battery fired salute of twenty-one guns. Perfect order is being maintained by municipal government."

"Distress is very great; but little sickness in town. Scarcely any yellow fever. A small gunboat and about 200 seamen left by Cervera have surrendered to me. Obstructions are being removed from mouth of harbor."

"Upon coming into the city I discovered a perfect entanglement of defenses. Fighting as the Spaniards did the first day it would have cost 5,000 lives to have taken it. Battalions of Spanish troops have been depositing arms since daylight in armory, over which I have guard General Torrell formally surrendered the plaza and all stores at 9 a. m. W. R. SHAFTER, Major General.

Since the United States flag was hoisted last Sunday thousands of refugees are returning to the city asking for food.

Gen. Miles is now on his way to Porto Rico. He left on the 18th to be followed by 30,000 men and as many more as is necessary to do up the required work. An

overwhelming force will be thrown upon the island in order to make the campaign short.

Rev. Sam Small has been appointed chaplain of the third regiment of volunteer engineers.

Arrangements are being made to move right on and take other places. A vessel has been sent South for ammunition for Watson's fleet that is to sail for Spain.

A sufficient number of men will remain at Santiago to keep the Spaniards from retaking it.

Seven American warships heavily bombarded Manzanilla on the 18th and three steamers of the Manzaneta were set on fire.

On the 18th Dewey's gunboat sent a shell across the bows of a German vessel—Irene—which refused to obey orders. The German admiral protested and insisted that Dewey had no right to search his ships but they soon taught him better.

Up to Tuesday Torrell had turned over 22,789 Spaniards to Shafter.

Yesterday's papers state that Spanish ships will carry Spanish prisoners back to Spain. It is reported that Manila is ready to surrender. It is also stated that Gen. Miles is held back by orders and has not started for Porto Rico yet. Reports from Cuba say that Garcia, the insurgent leader is dead.

Local News.

Stephen Rice has also been sick for several days but is up again. Send for the Weekly Constitution and Nugget. Both 12 months for \$1.75.

Between thirty and forty hands are at work at the Calhoun mine this week.

All lovers of biscuits will regret to learn that wheat is on the rise again, as well as meat and lard.

G. H. McGuire, the jeweler, is very happy over the arrival of an little assistant that arrived at his house recently.

The veterans from this county that didn't get to go to Atlanta have missed a big treat for those that went are taking in the town.

John P. Smith, residing near Porter Springs, has sent his son and charming daughter—Ben and Miss Lizzie—to a high school over in Union county.

Dallis Lane, of Davis' district, was kicked on the throat by his mule last Monday which was very painful, rendering him unable to eat anything scarcely for awhile.

Deputy Collector Carter is here this week, making the Burnside his headquarters so as to be able to meet those who wish to register for the purpose of making brandy.

Last Wednesday night Squire Allen's cow had quite comfortable quarters. She found the door to Col. Price's private office open, through which she entered and finding no one present passed on to a nicely furnished bed room where she spent the night and was the first one up the next morning and when first observed was taking her breakfast from a nice lot of green grass growing in the yard.

Prof. Yeates, the State Geologist, was with us again this week. James E. Wood, of Auraria, and John Bennett at Wier, are very low, but we hope that they will both recover.

No doubt the Dahlonega calaboose is one of the costliest structures of the kind in Georgia. It was first built for a jail and its walls are constructed of large double logs having a space of four inches between filled with flints all tamped in with a heavy iron bar. Then recently convenient out door buildings have been constructed on the premises all nicely painted up making the place very attractive.

When the new town marshal went into office a few days ago the calaboose key couldn't be found and the lock on the door had to be destroyed and a new one purchased before any one could be admitted. Mr. Davis, the old marshal, used to tell us about his being a high bailiff over in Union county. Once when he went to arrest a defendant the latter proposed to put up a quart of liquor against the warrant and the winner in a game of cards was to take both. So Mr. Davis lost. Then he proposed to put up his commission against the warrant. At the end of seven up he was again the loser and had to go off without commission, warrant or man. It might have been that he undertook the same game with some evil doer is why the calaboose keys are out of pocket.

Several of our citizens attended church in the country last Sunday at Siloam and listened to a very able sermon delivered by Rev. Wesley Stargel. Every thing was peaceable and quiet and no one present was noticed to be under the influence of intoxicants.

One young man who went from town didn't go into the church or raise his hat to a single lady while out there which we deem necessary to explain. The hair on the top of his head was growing thin and he was told if he would have his head shaved that his hair would all come back as thick as it was when sent sixteen, which instructions were carried out. And he was afraid if a lady got a peep at his knowledge box that she would take him for some 60-year-old bachelor with painted cheeks and dyed moustache. Our friend Wm. Worley was the embarrassed young man.

Last Sunday was the regular monthly meeting day at Yahoola a few miles above Dahlonega, and they had preaching, a funeral and the disposition of fifteen or twenty gallons of liquor by some young blockaders, all going on at the same time. Miss Jane Dowdy, who had been an inmate of the Pauper's Home for many years had passed away and was placed in a rough pine coffin, without the inside being dressed and buried by three men near the church, without any ceremony whatever. There is said to have been two ministers at the church but not one went out to say a word about the dead woman.

This is a shame and a disgrace to any civilized community. Lumpkin county's paupers should not be allowed to be treated in any such a manner. The poor unfortunate creature was deformed and death was no doubt preferable to her but it is a very bad way to be treated in a community of people where so many claim to be Christians. No wonder that some poor people who suffer from hunger had rather die than go to this Pauper's Home, which should be made a comfort and pleasure instead of a torment on earth. Not long ago one of the inmates of this place become insane and had to be sent to the asylum. Is there any wonder? There is but one inmate left there—an old lady—whose mind is also unbalanced and according to nature will soon pass out of existence. And when she does this place should be closed up and sold out. When the county authorities can't afford to buy new plank to make one of her paupers a coffin and have to tear old lumber off of an outhouse for the purpose, don't you think that it is time to dispose of the entire concern?

The yellow fever now believed to be at Tampa, Fla.

Dawson county letter received is entirely too long for publication.

The peach growers in lower Georgia are losing thousands of dollars daily on account of a crate famine.

The names of some of the visitors in Dahlonega this week are L. A. Teasley, Spokane, Wash.; Dr. O. Lyndon, Atlanta; W. E. and W. H. Reece, Talking Rock, Ga.; A. B. Parkey, Washington, D. C.; Sergt. Smith 2nd Ga. Volunteers, Tampa, Fla. The Sergeant is still with us and is here for the purpose of receiving recruits for the army.

NOTICE TO THE ROAD COMMISSIONERS.

Georgia, Lumpkin County. The road commissioners of each Matilda District in the county are hereby notified to look after the roads of their respective districts and have them properly trimmed out and the loose rock thrown out of them and the dirt work properly done as soon as it is practicable to do so. No further notice to said commissioners will be given by me. This given under my hand and official signature, July 19, 1898. W. H. C. TATE, Ordinary.

We are authorized to announce the name of J. A. Anderson for tax Receiver of Lumpkin county at the ensuing election in October.

FOR SHERIFF.

To the voters of Lumpkin: I announce myself as a candidate for Sheriff of Lumpkin county and respectfully ask the voters to give me their support. If elected I will faithfully perform the duties of such office to the best of my ability. Respectfully, J. M. DAVIS.

FOR COUNTY TREASURER.

To the voters of Lumpkin county: I take this method of announcing my candidacy for re-election to the office of county treasurer and hope to receive a hearty support from you. Thanking you for past favors and hoping for a continuation of the same, I am yours respectfully, E. F. JACKSON.

FOR TAX COLLECTOR.

To the voters of Lumpkin County. I announce myself as a candidate for re-election to the office of tax collector. Thanking you for past favors and hoping my efforts to serve you for the past year will meet your approval, and if so I feel sure I will have your support in the coming election. Yours Truly, J. F. SARGENT.

We are requested to announce the name of George W. Walker, Jr., as a candidate for tax collector of Lumpkin county who promises to discharge the duties of such office to the best of his ability and to the satisfaction of all if elected.

I am, respectfully,

Did you ever See a Snow Storm in Summer?

We never did; but we have seen the clothing at this time of the year so covered with dandruff that it looked as if it had been out in a regular snowstorm.

No need of this snowstorm. As the summer sun would melt the falling snow so will

Ager's Hair Vigor

melt these flakes of dandruff in the scalp. It goes further than this; it prevents their formation. It has still other properties; it will restore color to gray hair in just ten times out of every ten cases.

And it does even more; it feeds and nourishes the roots of the hair. This hair becomes thick; and short hair becomes long hair.

We have a book on the Hair and Scalp. It is yours, for the asking.

If you do not obtain all the benefits you expect from the use of the Vigor, write the owner about it. Presumably there is some difficulty with your general system, which may be easily removed.

THE NUGGET.

DAHLONEGA, GA., JULY 22, 1898.

Tom Sain is preparing to make bread this year.

One hundred thousand good brick for sale by Moore & McGuire.

Porter Springs mail failed to reach here in time to make connection with the Gainesville mail last Monday.

An unusual heavy rain some days ago damaged the crops badly in Mill Creek district. Many acres of corn were destroyed.

Mr. Drake, after spending several days here looking over some mining property, left for his home in New York last Tuesday, who will likely return again soon and make an investment in some choice property he examined.

F. S. Packard, owner of the Turkey Hill, left for his home last Monday for Stoughton, Mich., after spending several months on his property. His father is getting very feeble is the cause of his departure just at this time.

The first water melons in Dahlonega this season were brought in last Tuesday by Sol Crain who raised them twenty miles below here in Dawson county. They went like hot cakes at a good figure, Moore & McGuire buying the load.

Monday while Boyd Gurley was driving his team over the bridge at the old Lawrence shaft the structure gave way just as the hind wheels were passing off of it and it was a hard pull for him to keep his wagon from going down into the deep cut.

Our subscribers at Gowan, Hall county, miss getting their papers sometimes, and hereafter we will send them to Murrayville. Sunday one man went after his paper and found that the postmaster had carried them all from the office to the house and was reading one. No wonder the papers get misplaced.

We understand that John Huff will soon commence mining operation on the Chastotes property belonging to Capt. F. W. Hall, and we may expect to hear of good results at an early day for Mr. Huff has enough practical knowledge to know where the gold is without having to be shown by any geologist who knows nothing except what he gathers from books, and that is not much.

Last Sunday at 11 o'clock when they went to ring the col. Baptist church bell for services some one had filled the keyhole of the door with pine rosin and the door could not be opened for more than an hour. A man had to enter through a window and work on the inside while the other kept busy on the opposite side of the door and some time afternoon they succeeded in making the way clear and swung the door ajar. An effort is being made to find out the one that did it. If they succeed it will be made pretty hot for the party, and convince him that it won't do to fool with one of the Lord's doors in this manner.

John Corn, Jr., and Miss Jennie, daughter of Thomas Sain, were wedded last Sunday at about 2 o'clock, a. m., in Mill Creek district by Rev. J. E. Blackburn. The girls parents were opposed to the wedding is why it occurred between midnight and day. That night the family didn't retire until late and the young lady waited until she was satisfied that they were all asleep. Then she arose, quietly dressed and slipped out barefooted. She had been prevented by her parents from marrying once before and this time she was determined to be master of the occasion. When she reached her lover and his friends she informed them that everything was all right because she had left "dad saving guards and man stirring mush" (sneering) when the bridal knot was soon tied and they went away with two souls with but a single thought, two hearts that beat as one.

Dr. Jones is absent in Atlanta this week.

Prof. Stewart hasn't returned yet. Was delayed on account of the death of his wife's sister.

Gainesville mail was about two hours late Wednesday on account of one of the drivers horses giving out.

Will Soseby of Demorest lost one of his horses in Dahlonega this week by the animal lying down on a stab.

M. Kingsbury was up a short time from Auraria last Tuesday. The gentleman wastes no idle moments and always comes and goes in a hurry.

Moore & McGuire have just received their new stock of shoes consisting of 700 pairs of all sorts and sizes and at prices that will be sure to cause you to buy after an inspection of the same.

Prof. M. G. Bates, who graduated in the class of 1878 from the N. G. A. College, has been elected Superintendent of Public Schools after serving as Principal of High Schools in the same city. Quite a compliment to the old N. G. A. C.

J. M. Berry, a resident of Nimblewill district, announces his name today as a candidate for sheriff. Mr. Berry used to go to college here and is a son of Uncle J. A. Berry who was so well known and loved and respected for his many kind acts. J. M. is a "chip off of the old block" and will make some body get a move on them before the campaign is ended.

Mrs. Bird and her daughter, Miss Ida, who have lived in Dahlonega for some years, left on a visit to their old home in Hall county last Monday where they will remain for a short while and depart for another clime. Mrs. Bird will go to Henrietta, Texas, where her two sons reside, and Miss Ida will go to Chattanooga and live with her sister, Mrs. Richie. The people of Dahlonega regretted to see them leave. We wish them both a safe and pleasant trip to their new homes.

W. H. Walker, attorney for pensioners, and A. B. Farkey, pensioner inspector, have both been here this week. Ones business is to cause pensioners to be given and the others to take. Mr. Parkey is investigating several claims in this county. He went out to see Lewis Brady, Richard Dowdy and Wm. Postell while here and probably others, who have been drawing. Brady and Dowdy were notified some time ago that their claims would be paid off no longer but the former continued sending in his and Uncle Sam has kept paying him off promptly up to the present time.

It becomes our duty to record the death of John B. Graham, post master at Two Run, and one of the oldest landmarks in the county, which occurred at his home at that place on Wednesday at 12:30 o'clock, a. m., at the ripe old age of 84 years and four months. The deceased has been in this county a long time, how long we are unable to ascertain just now, but are told that he kept store at New Bridge, then called Leathers' Ford, more than fifty years ago. In his younger days he was a public man of much note. He served as sheriff of Lumpkin county and has been elected to both branches of the legislature and is well known throughout this whole mountain country and his death will be regretted by all, for if he had any enemies they are not known. He was a member of the Baptist church and belonged to the Masonic fraternity at this place. His remains were interred in the Harmony cemetery in Dawson county yesterday in the presence of a large number of relatives and friends from both Dawson and Lumpkin counties. We extend to the wife our heartfelt sympathies in her hour of distress caused by being separated from one who had been her companion so long, likewise with the sons and daughters and other relatives. He was buried in the honors of Masonry.

An infant of Joe Forest was buried here Tuesday.

Several visitors came down from Porter Springs last Saturday to see the mining operations.

We are frequently asked who all are candidates. Look under the head of "Announcements" and see for yourself.

It is said that ex-senator Castlesberry will rent the old Besser Hotel and open out a boarding house for students.

Richardson Bros' brass and string band, are now up at Porter Springs and will furnish music there for the season. The place is alive with guests and everything up there seems to be joy and happiness.

Gen. A. J. Warren, of Marietta, Ohio, and A. J. Thies, of Creighton, Ga., a son of Capt. A. Thies who resided in Dahlonega long years ago, was in our town a few days last week inspecting the rich gold fields.

Col. J. H. Moore left for Canton last Saturday and will go from there to the big reunion in Atlanta. The Colonel's head is growing white but he will never grow so old that he will not enjoy the company of the boys who used to wear the gray.

A darkey was seen going out last Saturday towards the mountains with two covered jugs. But he had to return with empty vessels as the dealers knew that they could make more money by watering it and sell it to the dram drinkers at Yahooka church Sunday at retail.

Sergt. Smith of the 2nd Ga. Volunteers, requests us to state to those wishing to enlist in the army that he is in Dahlonega to accommodate them with headquarters at the Hall House. Men between the ages of 18 and 45 are desired who will be given \$15.00 per month together with board and clothes.

Mayor Price has been gone since Friday and our town has been in charge of Mayor pro tem Harrison who has had no official business to transact as the boys dread to come before him. He hardly ever gets his sights lower than \$5 and trimmings, notwithstanding he is a candidate. If he wasn't there is no telling how high he would go in mathematics. Mayor Price left early enough to have him a suit made so as to be able to dress up in gray at the big reunion in Atlanta.

A. J. Ash carried a crowd of Porter Springs visitors up on Blood mountain the other day where they enjoyed most of the day in pleasure and sight seeing, and while on the high top of this mountain that nearly kisses the sky were furnished music by a large rattler which had been disturbed by the new comers. The unpleasant song was soon ended by the party and all returned back to the springs very much pleased with the trip.

Last Saturday John Barker was brought in to town by the sheriff by authority of a warrant charging him with larceny. He waived examination and John Huff signed his bond and he was given his liberty. As stated in last week's Nugget Barker was in company with Arverter Sullins when he stabbed Frank Crisson recently. Crisson claimed that he had forty odd dollars on his person at the time of the trouble which was afterwards missing. This explains Barkers arrest. Sullins has not been caught yet.

Last Friday Frank Crisson, who was recently stabbed by Arverter Sullins, undertook to walk home from Wes Huleys but didn't get further than a quarter of a mile until his breast began to pain him and he had to stop at Bud Armstrongs. Before starting he remarked that he felt as well as he ever did and said that he wanted to go out hunting, but this short trip soon convinced him that he was not well by a good deal. Dr. Whelchel went over that evening and gave him a lecture and some medicine and at this writing he is getting along very well.

Capt. J. W. Woodward left last Tuesday headed towards the reunion.

Mrs. Clark Bryan, who has been an invalid for more than two years, is very low and not expected to live.

By reading a notice elsewhere road commissioners will find out that the ordinary wants them to have the roads looked after at once.

Mrs. M. W. Crisson, residing some two miles of Dahlonega, is very low with fever and is not expected to live unless a change takes place soon.

J. E. Meaders came up from Swainsboro last Monday afternoon and after spending the night he left with his father the next morning to be present at the reunion in company with H. D. Strickland and Fred Price. Mr. Meaders' family came with him.

Fans 2c and up, ladies under-vests 5c and up, gents underwear 21c and up, 14 quart dish pans 17c, Dooskin jeans 20, tumblers 3, good calico and checks 5 and 6, 4 quart covered buckets 3, face powders 3. Our ladies shoes are low priced. 2t B. R. MEADERS & SONS.

Our old friend and former schoolmate, Robt. Howell, is no more. He breathed his last Monday afternoon at 2:30 o'clock, after an illness of many months. He had been confined to his bed eight weeks and endured much suffering, having fallen away until he was almost destitute of flesh and probably didn't weigh more than 75 pounds when he expired. He was a poor man but his friends were numbered by the hundreds and everybody who formed his acquaintance never failed to like him. The writer and the deceased learned our A. B. C's from the same teacher, were raised almost together and never had an ill feeling towards each other until a few years ago, which was brought about by an enemy of the writer who delighted in creating discord. We have spent many pleasant days together while boys and even since manhood but the angel of death has come and severed the cords of his life and separated us and brought these happy occasions to an end. We deeply sympathize with the wife, her little children and other relatives of the deceased and with a tear of regret say farewell to another old schoolmate.

A number of the old Confederate soldiers in Lumpkin county would like to have been present at the big reunion in Atlanta this week and looked upon the faces of their old comrades once more many of whom they will never see again, but they are penniless and had no way to get there. Something over \$12 were given by the young ladies as the proceeds of an ice cream festival some time ago, for this purpose which was very good as far as it went but there were too many needy ones for all to derive benefits from it. At the last meeting of the county re-union of the veterans a committee of three, W. H. McAfee, W. H. Cook and Tilman Davis, was appointed by Commander F. M. Williams to take this money and distribute it out to those needing it worst who desired to attend the re-union in Atlanta. It is reported now that "Uncle" Tilman kept back \$1 of the money to help defray his own expenses down there. Whether this report is true or not we can not say, but it is causing a great deal of dissatisfaction among the veterans and will have a tendency to break up the association if not shown up to the contrary, on account of Mr. Davis being worth several hundred dollars and has money loaned out on interest. We heard one member of the association, who didn't join it for any personal gain, say that if this is the way they were going to run it he would never attend another meeting. Things can be very easily shown up by the committee making a report at the next meeting and give the names of those who got any of the money.

Rev. W. H. Parks has returned from his visit.

J. W. Adams, of Chattanooga, has been here again this week inspecting the gold fields.

J. N. DuFree, one of the clever clerks at the Hall Mide Co., is absent this week on a visit to Atlanta and Marietta.

Last Sunday Miss Sarah Abbe was given a beautiful book by R. C. Meaders for good lessons and general attendance at Sunday School.

The pastor of the M. E. Church being absent last Sunday Dr. N. F. Howard filled his place in the pulpit and delivered a very interesting sermon to a good sized congregation.

Just make it convenient to step into Moore & McGuire's store and examine their new stock of sewing machines. They are the best machines made and are offered at prices that will astonish you.

Everybody seems to be busy now. Eight hands promised Marshal Bruce that they would be ready to go to work for him on the streets Monday. But when the time rolled round only two of them appeared.

The other day up in Nimblewill district while a farmer was plowing, his mule got scared and run off with the plow and stock to the house. Directly the tiller saw the animal coming back with increased speed, having an old fashioned Georgia bedstead fastened to the plow stock, which was destroying his corn faster than a freshet. He succeeded after awhile in catching the mule and relieving it of its piece of furniture. The women folks were scouring at the house and had put the old corded bedstead into the yard which got fastened to the plowing outfit as the mule passed through.

The great re-union of the confederate veterans is now in full blast in Atlanta and we hope all the old vets are enjoying themselves, especially those gone from Lumpkin county. Last Sunday three—Tilman Davis, W. J. Ayery and Marg Grizzle—passed through Dahlonega on their way to Atlanta in company with "Smoking" Jim Anderson, who expected to make the trip all the way by wagon. And on Monday Capt. F. M. Williams, Capt. W. H. McAfee and Wm. Cavender left out for the same place, who were accompanied by Councilman M. J. Williams who is not old enough for a vet, but just went along to see and be seen. About forty of the old soldiers were expecting to go from this county but we don't expect much more than half that number got off. Virge Moose and Bill Cook are gone too.

Andrew Adams, a very poor man who resides near Bearden's bridge, together with his wife and four little children, are in very needy circumstances. The husband has been down sick for some time and has no means of support except by his manual labor. His wife is unable to do anything for she cannot leave her sick husband. Their only dependence for a living now is what their kind neighbors and other generous hearted people give them. There is a tax collected every year for this purpose and some money is now in the treasury but we understand that Judge Tate says there are other sick people in the county and he seems to be helping none. It matters not if there was not a cent in the treasury there is a law that makes it the duty of the ordinary to provide for all needy people like this, even if it requires an extra tax to be levied. This way of being so close as to skin a flea for the hide and follow in order to reduce taxes and save the county a few dollars when some of her citizens are suffering for the want of food does not speak well of the man who has the power to relieve them and refuses to do it. Not long since Judge Tate ordered paid out of the county treasury \$12.50 to a physician of our town for treating a negro boy for a loathsome disease. His heart became hardened against all poor afflicted people since then?

Collector Carter and Grizzle went out in the mountains yesterday to see some blockaders.

W. H. McAfee's announcement for the legislature and platform will appear in next week's Nugget.

Mrs. D. T. Harris and Miss Ethel, left last Monday for the Big Joe where they will likely remain the balance of the summer.

Last Saturday and night were very quiet. No drinking or misbehavior could be seen or heard of. If it was this way all the time our town marshal would soon be out of a job.

Dr. Whelchel, Col. R. H. Baker and merchant H. D. Gurley spent last Saturday night at Porter Springs where they met many old acquaintances and formed a large number of new ones.

Prof. Amstead, who takes charge of the Business Department of the college, is now permanently located in the Meaders house. Our citizens extend to him and his lady a most hearty welcome.

James B. Anderson announces his name today for sheriff of Lumpkin. Every man in the county knows, as well as we do, that Jim is not only able both mentally and physically to make a good sheriff but has sufficient grit to enable him to better perform his duties if elected.

Capt. John Huff was up from the Calhoun last Saturday, who reports the work on the dam progressing as rapidly as possible. A large force of hands are employed and many improvements will be made about the mine. Mr. Huff has ceased his connection with the mines and the operations are now under the supervision of Mr. Whorton himself.

Mr. Editor:—We have a man in Shoal Creek district that is getting rich off of Martin's Ford district. He drives our stock over into his district and puts them in. Then charges them 50 cents a head and one cent a stalk for what corn they eat. A goose could eat his whole crop in three days. The reason that his crop is no better, from his looks he has eaten all of the soil off of the land.

Last week Enoch Crain, residing in the western portion of the county was arrested by the sheriff on a peace warrant sworn out by his wife. The trial was set for last Saturday to be investigated by Esquire Allen. The defendant and his father appeared but Mrs. Crain didn't. Since the issuing of the warrant he had proven to his wife that he was perfectly harmless and she decided to drop the prosecution and try him again.

Moore & McGuire have just received a large stock of the new books adopted by the board of education of Lumpkin county. The board does not make it compulsory for patrons to purchase these new books this year, but when they have to get new ones they will have to secure the ones adopted else be compelled to purchase more new ones next year again. Then again all the old stock of books have been shipped off. If you have any old books they will be exchanged for new ones and a very liberal sum allowed for the books.

The recent rains have been a big advantage to the mining interests in this section. Several mills had to close down on account of the scarcity of water to run them. Last week the Yahooka was able to start up and this week the old Hand was set to moving. Some new changes have been made at this mine. James Hughes who has been in charge of the works for sixteen years is now out and John Porter takes charge of the cut and Wash Grizzle will look after the mill. The clean up at the Findley last Saturday was very satisfactory, and Capt. Ingersoll, the lessee of all these mining operations belonging to Mr. Wall, hopes to get in some good work now while there is plenty of water. In other words, make hay while the sun shines.

Judges and Solicitors.

At the next election in this state, to be held on the first Wednesday in October, a proposed amendment to the constitution is to be voted upon, which amendment provides for the election of Judges and Solicitors by a direct vote of the people, but on a general state ticket, and not by circuits. If this amendment should be adopted, the people of the several circuits of the state will have no voice in the selection of these officers, except such as they have in the election of a Governor and state house officers. It is an outrage on every citizen and voter in the state, and the proposed amendment should be voted down, and covered up by such an avalanche of ballots against it, as will teach the Democratic jugglers of the state Legislature that they cannot deprive us, with our own consent, of the inestimable right of local choice in the selection of officers upon whose integrity our rights of life, liberty and property so largely depend. The principle involved is right, but when we are confronted with conditions that completely overturn that principle, it is our duty to protest against the methods proposed, and to demand that we be allowed to elect Judges and Solicitors separately each circuit. We know better, who we want to preside over our courts, and to administer our criminal laws, than the people of Chatham, Richmond, Bibb or Fulton counties and yet, if the proposed amendment prevails, the people of these counties will have as much voice in the selection of these officers as we have, and it is wrong. If we do not vote it down, it will become the organic law of the state, and cannot be changed, except by another vote to change the constitution, and we should therefore be very careful to have on our ballots, "Against Ratification," when we vote on this attempted scheme to defraud the people. All will admit that the present system is bad, but it is infinitely better than what is proposed.—Jasper Republican.

Speculators are buying up all the willow wood they can get. It is used for making charcoal for powder and is commanding good prices. It might pay our farming friends who have willow on their lands to look into the matter. The wood is purchased by shrewd buyers, who claim that it is to be used for making kindling sticks, but a cord of it is worth ten times as much as either cotton or hickory.

A NEW TRIUMPH.

The Dreaded Consumption Can Be Cured.

T. A. Sloum, the Great Chemist and Scientist, Will Send to Surgeons, Three Free Bottles of His Newly Discovered Remedies to Cure Consumption, and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the generous offer of the honored and distinguished chemist, T. A. Sloum, M. C., of New York City.

He has discovered a reliable and absolute cure for consumption, and all bronchial, throat, lung and chest disease, catarrhal affections, general decline and weakness, loss of flesh and all conditions of wasting away, and to make his great merits known will send three free bottles of his newly discovered remedies to any afflicted reader of the N. O. R.

Already his "new scientific system of medicine" has permanently cured thousands of apparently hopeless cases. The Doctor considers it not only his professional, but his religious duty—a duty to which he owes suffering humanity—to donate his infallible cure. He has proved the "dreaded consumption" to be a curable disease beyond a doubt, in any climate, and has on file in his American and European laboratories thousands of "heartfelt testimonials of gratitude" from those benefited and cured, in all parts of the world. Catarrhal and pulmonary troubles lead to consumption, and consumption, uninterrupted, means speedy and certain death. Don't delay until it is too late. Simply write T. A. Sloum, M. C., 98 Pine Street, New York, giving express and postoffice address, and the free medicine will be promptly sent. Please tell the Doctor you saw his offer in the N. O. R., Jan. 28.

INQUIRY BOX FOR MONTH.

The State Agricultural Department Replies to Questions.

QUESTION.—I would like to know something more about vetches. Some time ago I read your article on this subject, and as I wish to experiment a little on this line, I write to ask if it is advisable to sow now, or would it be best to wait until fall? If we can get a certain crop that will give us green food in the late winter and early spring one difficulty that the farmer has to contend against is the nitrogen, and this can be done with a nitrogen gathering crop, which will at the same time feed the land, farming at the south will have made a long step forward.

ANSWER.—In the southern states vetches should be sown in the late summer or early fall. The hairy vetch is preferred for our climate and should be sown from the middle of August to the middle of September, according to seasons. Spring vetches seem more particularly suited to northern latitudes, indeed, have proved a signal failure in our climate. Hairy vetch will stand a good amount of cold and drought, but it does not like a damp soil—any excess of water is very injurious to it and it seems to prefer a sandy soil. At the Mississippi Experiment Station heavy annual crops have been realized from a pease of land sown in 1888, which has never been repeated. Stock is taken off and cuttings cease in March, the plants mature and scatter their seed over the ground, which begin to germinate with the first fall rains. If the crop is intended to be cut for forage and sown broadcast, about a bushel of winter oats, or rye or wheat should be sown at the same time. These will furnish a support for the vines and prevent them from trailing on the ground. The difficulty of cutting the crop properly will thus be obviated. When cut for hay the plants should be in full bloom. The hairy vetch is another variety which is recommended for poor, thin calcareous or very sandy soils, which will not support clovers or better forage crops, but from the result of experiments with it it cannot be recommended as much value. The hairy vetch, however, has a high importance. Stock are very fond of it. It has a high feeding value. It may be cured for hay or pastured and is a most excellent plant for soiling. When once fairly established it withstands drought and extremes of temperature. Most of the seed are imported from Europe and as yet are high priced, which is the chief present difficulty in the way of its general introduction. Its cultivation is, however, increasing, and we hope to see the day when the much needed green crop, to fill up the hiatus between late winter and early spring, will be found in the vetches of which so little is now generally known. We would like to know the result of your experience if you decide to try the experiment this fall.—State Agricultural Department.

Don't Neglect Your Liver.
Liver troubles quickly result in serious
complications, and the man who neglects
his liver has little reason to regret it. A bottle
of Brown's Iron Bitters taken now and then
will keep the liver in perfect order. If the
disease has developed, Brown's Iron Bitters
will cure it permanently. Strength and
activity will always follow its use.
Brown's Iron Bitters is sold by all dealers.

Garcia Not Dead But Mad.

Gen. Garcia is not dead as re-
ported last week, but was off some-
where preparing a letter which he
sent to Gen. Shafter, in which he
declared that he was disgusted at
the treatment at the hands of
the Americans and will therefore
withdraw the forces to the hills.

Among the things of which Gen.
Garcia complains is the failure of
the American commander to offi-
cially notify him of the surren-
der of the Spanish forces, under Gen.
Torre and he is also incensed at
the alleged fact that he was not in-
vited to be present at the cere-
mony attending the formal capitu-
lation of Santiago.

Another grievance is the reten-
tion of the Spanish civil authori-
ties in the administration of their
functions in Santiago. For these
reasons Gen. Garcia declares that
he will no longer co-operate with
the forces under Gen. Shafter's
command, but will act independ-
ently, as he did before the Ameri-
can troops landed in Cuba.

Longest Tow Ever Attempted

San Francisco July 22.—The gun-
boat Inoquois, formerly the tug
Fearless, is about to make the long-
est tow ever undertaken.

She is to haul the ship Tacoma
from San Francisco to Manila by
the way of Honolulu, a distance of
about 6,000 miles. The Tacoma is
to carry 100 horses and 120 mules
and a coal supply.

The Inoquois will steam to Hon-
olulu, a distance of 2,100 miles,
on her own coal. At Honolulu
she will recede from the bunkers at
that port and then proceed to the
Ladrones, and there getting into
smooth water, will take on suffi-
cient coal from the Tacoma to car-
ry her through to Manila.

Soldiers of Confederacy Re-
new Their Allegiance.

The Confederate Veterans in At-
lanta last week proved their alle-
giance to the United States gov-
ernment by pledging their hearty
support to the president in the
present crisis. In a resolution
unanimously adopted by a rising
vote the veterans declared their
willingness to aid Uncle Sam in
any manner, whether by arms or
men, in the prosecution with the
war against Spain. The resolu-
tions were introduced by general
Stephen D. Lee, commander of the
department of Tennessee, and were
endorsed by Gen. Gordon, who
read them to the convention, after
which a copy were sent to Presi-
dent McKinley.

Many persons suffer from disor-
ders in the kidneys and bladder
without knowing what is the matter
with them. They should know that
disorders in these organs if allowed
to remain will result fatally. Dr. J.
H. McLean's Liver and Kidney Balm
will restore healthy functional
activity and thus eradicate the
disease. Price \$1.00 a bottle. At
Moore McGuire's.

The South is furnishing more
volunteers to the army than the
North in proportion to the num-
ber of inhabitants. The call for
volunteers is based upon the total
population, and no negroes are
being taken, so makes the propo-
rtionate number of whites larger
in the South than in the North.

Does Aunt Rebecca take any in-
terest in the war? Yes; she wishes
the guns won't be near enough to
disturb her setting hens.

A Wonderful Discovery.
The last quarter of a century records
many wonderful discoveries in medicine,
but none that have accomplished more
for humanity than that stirring old household
remedy, Brown's Iron Bitters. It seems to
contain the very elements of good health,
and neither man, woman or child can take
it without deriving the greatest benefit.
Brown's Iron Bitters is sold by all dealers.

Awful Rain of Shells.

Some idea of the awful rain of
shells poured into the doomed
Spanish squadron on the morning
of July 8, by the pursuing Ameri-
can warships, may be gained from
the battleship Oregon.

This number also bears out the
statement of the Spanish officers
that it was the fire from the sec-
ond batteries that drove their men
from the guns and forced their ships
to beach.

From the time when Private
O'Shay of the battleship Oregon
fired the first shot from her for-
ward 6-pounder until the Chris-
topher Columbus turned toward the shore,
the Oregon fired 1776 shells. Of
these 1670 were from her 6-poun-
ders. The big 18-inch guns were
fired thirty-four times, the 8-inch
twenty-four times.

The 1-pounder was fired twenty
times. The destruction caused by
some of the shots was fearful. One 8-
inch shell which penetrated the
turret of the Almirante Oquendo,
exploded and killed every person
inside, blowing some to pieces.

You cannot be cheerful or happy
while your liver is disordered; life is
but a burden to persons so afflicted.
Dr. J. H. McLean's Liver and Kid-
ney Balm is the right thing to put
this organ into healthy condition.
It increases the secretion of bile,
stimulates the kidneys, and restores
the organs of the body to the proper
performance of their function. Price
\$1.00 a bottle. At Moore & Mc-
Guire's.

Congressional Appropriation.

The congress which adjourned
recently appropriated \$892,527,991
according to an official statement
by Chairman Cannon, of the house
committee on appropriations. The
total includes \$117,836,210 of per-
manent appropriations to meet
sinking fund requirements and
interest on the public debt and
\$361,788,085 to meet expenditures
of the war with Spain. Including
the two items mentioned, there re-
mains a total of \$419,693,676 to
meet all ordinary expenses of the
government, which is only a little
over \$4,000,000 in excess of that
appropriated at the last session of
congress for the same purposes.
This excess is more than account-
ed for by the increased approprias-
tion for pensions amounting to
\$8,000,000. While no river and
harbor bill has been passed the
sundry civil act carries \$14,-
031,613 to meet contracts author-
ized by previous congresses for
river and harbor works.

The "Life of the flesh is the blood
thereof" Pure blood means healthy
functional activity, and this is the
certainty of quick restora-
tion from sickness or accident. Dr.
J. H. McLean's Strengthening Cor-
dial and Blood Purifier gives pure,
rich blood and vitality and strenght-
ens the whole body. Price 50c and
\$1.00 a bottle. At Moore McGuire's.

The Ladrones Islands, which
have been taken possession of by
the American forces, are a group
of about twenty islands, belonging
to Spain, and lie east of the Philip-
pines and north of the Caroline
group. The total area of the
Ladrones is 1,254 square miles.
The population is only about
6,000. The largest island is
Guajan, about ninety miles in cir-
cumference, on which is the capi-
tal and seat of the Spanish govern-
or.

"I have used Chamberlain's
Cough Remedy in my family for

sults," says Mr. W. B. Cooper of

we find it especially effective. For

The Foe of Both.

Alcohol comes in to spoil the re-
lations between the employer and
the workman. The drinking
workman, no matter how skill-
ed in his workmanship when so-
ber, ought not to claim the full
wages of his skill, because he can-
not be relied on, and his employer
is always on the lookout for a
sober and steady skilled artisan
with whom to oust and replace the
drinker. The latter may work
well for many days, but suddenly
one morning he comes into the
shop, and in a few minutes has
blundered away material worth a
week's wages, or by his derange-
ment of the machinery some luck-
less comrade is cut into pieces, or,
if furious instead of maddled, he
has in a few minutes ruined more
than he can make good in weeks
or months of labor. And yet,
again, is missing for days when
work is pressing and hands cannot
be spared. The employer who
drinks, even though he be what is
termed a moderate drinker, is
thereby a fatal patron of all this
unreliability, and in himself il-
lustrates it, often failing to carry out
special promises to his men think-
ing he will, but lacking will-power
to do more than think and prom-
ise, and his unreliability further
vitiates the feelings between em-
ployer and man. In every condi-
tion of life, whiskey, whether slow-
ly or swiftly, surely destroys all
certainty of disaster and downfall
for the individual, for govern-
ment, for the race.

Think of Other People.

We ought to think of other peo-
ple's convenience more than some
of us do. The home is the place
where this thoughtfulness ought to
begin and be cultivated. One who
comes late to breakfast, admits
that he has been guilty of an un-
amiable self-indulgence, but for-
gets that he has marred the har-
monious flow of the household
life, and caused confusion and
extra work. The other day an
important committee of fifteen
was kept waiting ten minutes for
one tardy member, who came
santtering in at last, without even
an apology for causing fifteen men
a loss of time that to them was
very valuable, besides having put
a sore strain on their patience and
good nature. Common life is full
of just such thoughtlessness.

Our baby has been continually
troubled with colic and cholera
infantum since his birth, and all
that we could do for him did not
seem to give more than temporary
relief, until we tried Chamberlain's
Colic, Cholera and Diarrhoea Rem-
edy. Since giving that remedy he
has not been troubled. We want
to give you this testimonial as an
evidence of our gratitude, not that
on need it to advertise your meri-
torious remedy.—G. M. Law
Keokuk, Iowa. For sale by F.
W. Hall Mds Co.

The home papers occupies a place
that no other publication can fill.
It comes first, always. Everybody
looks through every column to see
if his or her "name is in the pa-
per." Each bit of local gossip is
read and discussed. Sometimes it
is a birth and sometimes it is a
marriage. No matter what it is,
every name mentioned is familiar
to all, and for the one reason alone
the home paper is prized above
anything the "literary fellows" in
the city can produce.

Are You Weak?
Weakness manifests itself in the loss
of ambition and aching bones. The blood
is watery; the tissues are wasting—the door
being opened for disease. A bottle of Brown's
Iron Bitters taken in time will restore your
strength, soothe your nerves, make your
blood rich and red. Do you more good
than an expensive special course of medicine.
Brown's Iron Bitters is sold by all dealers.

The Suns et of Life.

Old age is regarded by many as
a period to be old, to act old or to
look old. But when the heart has
been kept youthful and gay, to
grow old is only a mellow setting
of the glorious sunlight. Old age
is beautiful. The grand old sun
that rose in the majesty of youth,
and shown in the splendor of the
noonday, sinks to rest with even
more beautiful colors. It has been
softened and toned until the last
tints of its golden hue are even
more lovely than those of the fair
morning. Yes, give to us the glo-
ry of old age, crowned with wealth
of sunshine, wisdom and peace. It
stands as a beacon of light to guide
the coming footsteps of youth. But
it should be the study of every life
to grow old gracefully. We should
grow old with our hearts full of
love, charity and sympathy for
those who are passing the way we
have gone. We should grow old
uncomplainingly, unselfishly, cal-
culation abiding the Divine will and en-
during with patience the afflictions
that are laid upon us. The influ-
ence of such old age is wonderful.
And just as the lovely flowers re-
quire more attention and better
protection as age creeps on, much
more so to our loved ones. Shelter
the older ones from the storms,
protect them with your love. Old
ages and youth should go hand in
hand—the one to guide, the other
to follow. And while youth should
show the proper respect, old age
should set an example worthy to be
emulated.

A Commonplace Life.

The trouble is with you, my
dear girl, that you count little
things as of no worth. Where we
have one great renunciation to
make we have a thousand little ones
and life, which you are inclined to
call commonplace, is not so, for
every day can be made rich in
beautiful deeds. God, who is just
merciful, and when temptation
comes to you, even if you fail, He
remembers that you tried to do
what was right, and so is tender in
His thought of you. There is not
one of us who achieves, even for
one day, what we long to. But,
my dear, we can always try for it.
We can be ready for the trouble
that is before us and equip our-
selves by prayer and good thoughts
so that we can meet it bravely, and
possibly, overcome it. Of course
that is what we wish to do, and yet,
if we are not strong enough, if we
fall by the wayside, we must get
up and try again, and keep on
trying. That, in itself, will give
us strength. And as the years go
on and youth belong to the past, it
will always, because of this trying,
be easier to do that which is right
and merit "that peace which
passeth all understanding."

Persons troubled with diarrhoea
will be interested in the experience
of Mr. W. M. Bush, clerk of the
Dorchester, Providence, R. I.
He says: "For several years I
have been almost a constant suf-
ferer from diarrhoea, the frequent
attacks completely prostrating me
and rendering me unfit for my du-
ties at this hotel. About two years
ago a traveling salesman kindly
gave me a small bottle of Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy. Much to my surprise
and delight its effects were imme-
diate. Whenever I felt symptoms
of the disease I would fortify my-
self against the attack with a few
doses of this valuable remedy.
The result has been very satisfac-
tory and almost complete relief
from the affliction." For sale by

An Old Idea.

Every day strengthens the belief of emi-
nent physicians that impure blood is the
cause of the majority of our diseases.
Twenty-five years ago this theory was used
as a basis for the formula of Brown's Iron
Bitters. The many remarkable cures effected
by this famous old household remedy are
sufficient to prove that this theory is correct.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Dewey has cabled for 60,000 pounds of soap.

New York firms are preparing to hurry ships forward to Santiago with food.

Gen. Shafter reports more than 400 cases of different kinds of fever at Santiago.

A St. Louis firm has shipped 15 car loads of potatoes to Tampa, Fla., for the soldiers.

Last week at the mess hall in Atlanta 35564 meals were furnished confederate veterans.

Five more moonshiners confined in Fulton county jail enlisted in the army last week.

News comes from London that the powers will not allow America to annex the Philippine islands.

Dave Strickland in Forsyth county has five boys named Matthew, Mark, Luke, John and Paul.

One hundred and fifty cases of yellow fever were reported in Shafter's army at Santiago up to the 23rd.

It is said that Admiral Cervera renounces Spain and will make his residence in Boston when peace is made.

The president of the Florida state board of health issues a circular stating that there is no yellow fever at Tampa.

Rev. S. G. Means, colored, by invitation, preaches to the white people of Field's Chapel in Cherokee county next Sunday.

Lieutenant Hobson, the hero of the Merrimac made Washington an unexpected visit last week, who was given a grand reception.

Judge J. B. Estes, of Gainesville, will be in the race for Judge of the Superior Court, northeast circuit. Judge Estes is one of the ablest attorneys in the State and would make a good judge.

It is estimated that at least ten thousand people attended the United Confederate Association in Atlanta last week. Gen Gordon was again elected to the leadership of the association by acclamation. The next meeting will take place at Charleston.

It seems that Lieutenant John Lird, quartermaster of the Twelfth volunteers now at Chicanauga, had rather be governor than fight Spaniards. As he has formally accepted the nomination for Governor of Minnesota, tendered to him by the democrats, silver republicans and populists.

Wink Taylor who used to live in Gainesville and is well known to the people of Dahlonega, was killed on the 19th by John Coray at Decatur, Ill. Taylor was running a hotel and Corey was a guest who took the part of a dispute over a bill, which angered Taylor, and resulted as was stated.

An old soldier who had just returned from the reunion in Atlanta, was in our office last Monday relating an occurrence which he witnessed while in the city. He said that a "blue coat" came out from McPherson and began singing "Hang Jeff Davis on a Sour Apple Tree" among the yets. As he completed the first verse an old gray headed man in the crowd asked the fellow to please not sing any more there for it was not appropriate. The songster paid no attention to the old man but kept on singing to the displeasure of all present and just as he got to "Hang Jeff—" the old vet struck him under the nose with his fist and down the "blue coat" went. As soon as he struck the pavement the old man was on top of him. A policeman stepped up and separated them and as he started off with Mr. "Blue-Coat" the officer told the old vet to remain there until he returned. When the officer returned he told the old man that his trial would come off at the next reunion.

War News.

Friday—Gen. Miles departed for Porto Rico last Thursday, accompanied by battleships, cruisers and dispatch boats. Preparations are still going on for Watson to go to Spain.

Saturday—The letter of Gen. Garcia, the insurgent leader, to Gen. Shafter stating that he would withdraw his troops and go to the mountains and not co-operate with the Americans any more, because Gen. Shafter failed to recognize him during the ceremony just after the surrender of Santiago, has caused the President and members of the cabinet to condemn Gen. Shafter's work, which they say must be rectified. The news from Madrid now is very favorable for peace. It is reported that Senor Sagasta has stated that the government has already entered upon the preliminary stage of peace negotiations. It is said that Watson will not bombard Spanish coast but crosses the Atlantic in search of Camara's fleet.

Sunday—Four thousand men and vast cargoes of supplies left Tampa for Porto Rico yesterday. Gen. Shafter reports the number of Spanish prisoners to be about 28,000, and will get 6,000 at Guantanamo. Gen. Shafter returns thanks to Gen. Garcia for his good work, but says the surrender was made to the American army only. Four American warships Thursday bombarded harbor of Nipe on the northern coast of the province of Santa de Cuba and took possession of the harbor as a base of operations for the Porto Rico campaign. In the course of an hour they silenced three forts, sunk the Spanish gunboat Jorge Juan. The loss to the force defending the forts was heavy. The channel was full of mines.

Monday—Three southern regiments—Second Georgian the First Florida and the Fifth Maryland have been ordered to Porto Rico. The Spaniards turned over only 150 horses to Gen. Shafter yesterday. The others had been killed for food for the army. News comes from Madrid to the effect that peace prospects become brighter. 24,000 Spanish prisoners await transportation back to coast of Spain, and three thousand stacks of arms have been turned in to Gen. Shafter.

Then, why not continue the same helpful remedy right through the summer? It will do you as much good as when the weather is cold.

Its persistent use will certainly give you a better appetite and a stronger digestion.

It will cure your weak throat and heal your inflamed lungs. It will cure every case of consumption, when a cure is possible.

facing the enemy is around Manila. Nearly a week ago the second military expedition reached the Philippines, and cable dispatches state that they have been promptly landed and marched into position around the besieged city. There are 6,000 American soldiers there. Most of them are regulars and western volunteers, but the Tenth Pennsylvania infantry is among the lot. Brigadier General Anderson is in command and has divided his forces into two brigades, Brigadier General Greene commanding the second. Under Aguinaldo, who has his headquarters at Bakor, are 20,000 insurgents, and his line extends from near Cavite to the Pasig river, northeast of the city.

Wednesday.—Gen. Miles landed at Gwanica, 15 miles west of Ponce, Porto Rico, practically without opposition. There was a slight skirmish with the Spaniards, who were surprised and four of them killed. No casualties on the American side.

M. Cambon, the French ambassador, on behalf of Duke of Almodovar Rio, the Spanish minister of foreign affairs, presented to President McKinley a formal communication from the Spanish government asking if it would enter into negotiations for peace. No terms were mentioned. The matter will be discussed in cabinet at an early day.

Thursday.—To-day's papers state terms of peace were discussed in Washington both officially and unofficially, but no reply will be made to Spain until after the cabinet meeting to-day.

Local News.

Miss Mary Singleton, who used to live in Dahlonega, is here on a visit.

A. Reynolds, Ga. grower claims to have made a clear profit of \$10,000 on ten car loads of peaches.

It is reported that W. J. Bart will make the race for the legislature. Then we will have two country candidates and two living in town.

Frank Crisson, who was recently stabbed by Arverter Sullins, was in town Monday well and strong enough to carry a double barreled shot gun.

Mrs. Harvey Wells, of Atlanta, arrived in the city Wednesday and will spend several weeks at the private boarding house of Uncle Dick Wheelchels.

Mr. Wood, of Auraria, received a card from one of the boys who enlisted in the army from Lumpkin recently, stating that they were on their way to Tampa.

E. Carroll, of Dahlonega, has a silver watch that is over fifty years old. It's a good one. When it gets dusty he takes his blacking brush, gives it a little scrubbing and it keeps on moving.

Prof. Curry and Rev. Frank Mays, of Griffin, spent Sunday in Dahlonega. Mr. Mays preached an interesting sermon at the Methodist church that night to a large and attentive congregation.

The Strength of our Navy.

Washington, July 23.—A statement prepared in the office of the Adjutant General shows that the total strength of the army, regulars and volunteers to date, is 227,000—44,000 regulars and 183,000 volunteers. Under the second call for volunteers there are 15,000 vacancies, while the regular army is about 18,000 men short of the number authorized by law.

The following table shows the quota of each state under the second call and the number of enlistments:

To the Voters of Lumpkin County.

Having been solicited by my friends to become a candidate for the legislature in October, and from a conviction of my own, that I can be of service to my state and county, I take this opportunity in stating that I feel free in offering my service to the people with whom I have been reared, and closely identified with in all of the county's interests from my youth up to the present. Having enjoyed the confidence in the past as Senator of the 32nd Senatorial District, I now have the assurance after years intervening the approval of my constituency. Believing that I can be of service to my county and state, I ask of my people a favorable consideration. I may have committed mistakes in the past (and who of us have not). I pledge to you my efforts if elected on all the interest now claiming special legislation and will conduct myself, if honored by my county to represent you in the next general assembly, with what ever ability that I may have. I shall canvass the county closely and present to the people my views on the leading interests of the state that will claim special attention by the next general assembly, and should I share your confidence I pledge in advance not to betray the trust confided to my keeping. I shall run the race upon my merits and leave the demerits to be handled by my political enemies whom I shall endeavor to treat with a forgiving spirit.

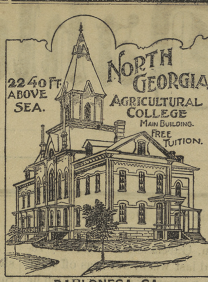

Yours Respectfully,
W. H. McAFEE.

THE NUGGET,

DAHLONEGA, GA., JULY 29, 1898.

B. C. Harris, who is book keeping in Atlanta, spent two or three days with his mother and other relatives in Dahlonega last week.

T. F. Jackson, book keeper for the firm of Moore & McGuire had to go home last Friday and nurse a well developed case of jaundice.

Prof. J. S. Stewart returned home last Friday after an absence of several weeks at various places. He left again yesterday to attend the district meeting at Cleveland.

It turns out that it is a false alarm about Will Duncan of Auraria being killed in Louisiana, as his brother got a letter from him the other day.

The Dahlonega trustees have at last secured a lot opposite Maj. Passengers residence on which to locate a school house which will soon be commenced.

The Dahlonega camp ground has been cleaned off this week and meeting will begin there next Monday week and last until Sunday night following.

Read the advertisement of the N. G. A. College to be found in another column. If the young desire a cheap collegiate education Dahlonega is the place to come.

Rev. A. F. Norton and lady passed through Dahlonega last Tuesday on their return home to Cleveland from a two or three weeks visit to friends and relatives below.

The jury revisors for Lumpkin county meet next Monday for the purpose of beginning their work of revising the jury boxes which will require several days to complete the work.

Prof. Ansted who has recently located in Dahlonega stated to us last week that he was very much pleased with our town and thought of buying property and permanently locating here.

R. C. Wood, who left Dahlonega some weeks ago for Kansas returned last Monday. Mr. Wood has many warm personal friends in Dahlonega who are always glad to have his presence in our midst.

The sweet notes of Mrs. M. F. Whelchel's mawing bird, which could be heard nearly all over town, will be heard no more, as a night hawk or something else relieved it of its bill and a portion of its head the other night.

Ned Moose, who was arrested in Hall county some time ago, charged with stealing turkeys has been released. The fellow with him at the time went before the grand jury and told that he stole both turkeys and got Ned to carry one for him.

The members of Liberty church objected to Miss Mattie Harris teaching school in their church which renders them unable to have their children taught in that neighborhood until a school house is built. Miss Mattie has taken charge of the school at Oak Grove.

R. T. Loggins, who got into a little mischief in Dahlonega during commencement, came in last Saturday and entered a plea of guilt before Mayor pro tem Harrison, who fined him the same that all the other commencement mischief doers had to pay—one dollar and cost.

Some of the young ladies and young men who attended the dance at Porter Springs last Saturday night, paid pretty dear for their fun. As the rain began a short time after dark and continued nearly all night, furnishing them a dark muddy and rainy night to return home after the sport was over.

Mayor Price returned to Dahlonega after an absence in Atlanta of more than a week last Monday all shaved up, being the first time that the razor has been used on his face for more than thirty years. He wore his white Confederate hat and looked at least twenty years younger than he did before this change was made.

James and Gager Landrum, residing near Rome, were here this week on a visit to relatives.

Several cases of fever over on the Chastatee river. Bud Armstrong is down sick and four of J. C. Stargel's children.

Town Marshal Bruce's pistol accidentally discharged in the council room Saturday night, which fell while he was putting it on the table after dark.

W. B. Woodward and his two sisters, Miss Nettie and Mrs. Maggie Hooker, spent a day or two in Gainesville this week visiting relatives and friends.

Remember that we never fail in getting our papers in the post office every Friday morning and if you do not get your NUGGET on time it is not our fault.

There are a number of cases of jaundice in town. Gun powder and liquor seem to be a sure cure. Those not having it now are expected to. Nearly every fellow now has his jug of liquor together with a little bundle of powder tied to the handle so as to have everything in readiness when the whites of his eyes begin to turn yellow.

Sheriff Brooksher went down to Gainesville last Friday and brought back young Bill Moore, colored, who he had arrested on two warrants, one for hitting Perry Anderson's boy with a rock some time ago and the other for carrying a pistol. Bill had succeeded in dodging the officers for a long time but as time rolled on he became more gentle and was captured.

Some of the patrons of Two Run post office are afraid that it will be discontinued since the death of the post master, Col. John B. Graham. We have no idea that it will for his son John has located there to look after his mother's business and we have no other idea but what he will be willing to look after Uncle Sam's too for the accommodation of his neighbors.

It seems that pretty healthy females get better and more donations than some of the sick and more needy people. Last week a friend went out in the interest of a poor penniless sick man who has a wife and four little children looking to him for a support and the several donations didn't quite amount to one dollar. When a good looking woman didn't call at but one place and she received a nice stylish hat, two green apples and a whole lot of cabbage.

No one should enlist in the army and go off without enough money to pay their way back in case that they are rejected in the final examination at Atlanta or at Griffin. Uncle Sam pays your way down the railroad but not back. We were told by a resident of Griffin last Monday that numbers and numbers of young men had been rejected and turned loose in that city, some of them as far as two hundred miles from home, without a cent to buy anything to eat with and no way to get back home. The distressed would be soldiers would go about over the streets crying until the citizens would get sorry for them and contribute enough money to send them back to their parents a much wiser set of boys.

Uncle Sam's recruiting officers are not supplied with a drum and a life in the discharge of their official duties but keep something that is more effective, which is good rye or corn liquor. They will coax a fellow in their room and after telling him all about the bright side of a soldier's life, give him a drink or two which soon makes the fellow feel patriotic and he enlists and is examined. If he passes he is given another drink and his mouth is loaded with a long 4 inch cigar. This makes the new soldier feel so good that he goes and hunts up some of his companions and persuades them to go up too and hear how the Spaniards are so easily killed and what fun and pleasures are to be had by soldiering. More names are added to the list, and this creates enthusiasm.

Prof. Witherspoon, wife and little ones are off on a visit.

The Dahlonega District meeting is now in session at Cleveland.

Tax Receiver has completed his books and the decrease of the valuation of property is near \$7,000.

Miss Mary Davis, daughter of Mrs. B. J. Davis, of Atlanta, came up last Friday on a short visit.

Mrs. Robt. Howell and family will leave next Monday for Dalton for the purpose of making it their future homes.

The revenue officers found nothing in their raid in Dawson county the other night except a few old barrels and a small quantity of beer.

The announcement of W. H. McAfee, who is a candidate for the legislature appears in another column. Mr. McAfee is an old legislator, a safe man and if elected Lumpkin county's interests will not suffer.

Fans 3c and up, ladies under-vests 1c and up, gents underwear 21c and up, 14 quart dish pans 17c, Dooskin jeans 20, tumblers 3, good calico and checks 5 and 6, 4 quart covered buckets 8, face powders 3. Our ladies shoes are low priced.

B. R. MEADERS & SONS.

At one time last week Marshal Bruce held the reigns of the whole town government in his hands. The Mayor and all the councilmen were absent. Mayor Price and councilman Williams were gone to Atlanta, councilman Wallace went to Gainesville and Mayor pro tem Harrison was in Dawson county attending a funeral.

One of our town district bailiffs, James Walker, has enlisted in the army, leaving constable Williams to hold the fort. Walker is the only married man out of the seven who enlisted, that is married. He preferred fighting Spaniards than to remain with his wife and little child. We are not that patriot and after Jim lies on the ground and covers with the heavens a few winters he will begin to loose some of his patriotism too.

We have received complaints from subscribers at Trion Factory, Swainsboro and Atlanta that they frequently miss getting their papers until Monday. We never fail to get them in the Dahlonega office every Friday morning and see them put into the mail bags. Most certainly they should reach Atlanta by Saturday if not before. The fault must be in those handling the mails at Gainesville. A letter reaches Atlanta the same day it is written and surely a paper can be handled so as to cause it to go there the next day.

The old soldiers who attended the reunion from Lumpkin all got back safe. Some only spent but one day while others remained until the whole thing was over. The city of Atlanta certainly throw open her gates and welcomed every body and fed 1,500 daily free of charge at the exposition ground, and still some returned home without receiving any free lunches, but it was because they could not stand the heat and great crowd long enough until their turns came. It was no place for very old people to enjoy themselves although there were thousands of them present.

Last week while several members of the Masonic fraternity were on their way to Dawson to attend the funeral of Uncle John B. Graham, they passed a female a short distance this side of Auraria working in the gold mines, who was using the pick and shovel just like a man. After the crowd got off a little distance they stopped and made up a purse which was sent back to the lady by the driver with instructions for her to get out of the water. The money was received with thanks but she kept on digging. After reaching Auraria the kind hearted gentlemen were informed that the industrious old lady was Mrs. Mary Odum who had money loaned out on interest, and you can imagine their surprise.

Mrs. Robert Howell is expecting to make Dalton her future home and will move in a few days.

Martin L. Burns who was sent to the chain gang from Lumpkin county some years ago, for the murder of Bearden is dead.

Life is too short for people to read very long communications and we are not going to publish them unless they are very interesting.

Rev. John Rider was thrown from his mule last Sunday and slightly injured, caused by the animal getting scared at Jim Heald's team running away.

Robert and Isaac Reid made an effort to enlist in the army the other day but Bob had but two toes on one foot and Ike's nose wore a small wart and they were both rejected.

James M. Smith has been sick. Mr. Smith weighs about two hundred pounds, always healthy, never being sick a single day before in his life. Mrs. J. H. Worley and Miss Mellicie Carroll are also sick.

Prof. Mitchem, of West Point, who went to the college some four or five years ago, has been here for several days enjoying himself with his old friends. He is now an adjunct teacher in an Auburn, Ala. college.

Piercan-Edmonson and his wife have separated again, being the second time. It is reported that the husband tells that his wife refused to cook for him. His wife requests us to state that it is not so as she always tried to please him. She said that he would often come home after midnight and curse and abuse her. He stamped the coffee pot flat with his foot and then left.

Judge Tate went over to Hall county last Sunday to see his brother-in-law, Harris Glaze who left that county some years ago and went to Texas. Mr. Glaze came out on an excursion from that state to the big reunion in Atlanta and thought he would visit his old home while so near. There was one thousand excursionists in the party among whom were seven or eight hundred Confederate soldiers.

We have been handed a communication from Thomas Lee, overseer of the poor farm covering four pages of legal cap paper in reply to an article in last week's NUGGET in reference to the burial of Miss Jane Dowdy. We would publish it but we are satisfied that we can set Mr. Lee all right without taking up so much space as would require for the publication of this letter. The substance of it is that our informer was mistaken in every assertion made except the old lumber for the coffin which he says was sound and was at one time dressed, and about the crazy inmate McCroskey who was sent there in that condition until a place could be secured for him in the asylum. Besides he states that he had the body nicely buried with the usual services by Rev. S. M. Grizzle, and winds up by saying that he has always discharged his duties and gives a number of the names of his neighbors to bear him out in this statement. This no one denies for every grand jury have said so. Mr. Lee has done remarkably well to have nothing to remark. It was impossible for him to have a new coffin made from old lumber and it was not his place or business to go out and buy it. This pauper so called home is run on a very cheap scale. This poor woman had been sick ever since spring and the doctor had been sent for only three times, and if this woman or another of the inmates have ever received a cup of sweetened coffee we have failed to see where the sugar has been charged up to the county. There is no doubt about this being a very quiet funeral. One man said he stood and watched three men covering up the corpse while singing was going on at the church about one hundred yards distant. Another told us that he was at the church and never even heard of her death until the next day.

Nearly every one that comes to town now has watermelons.

Mrs. Elias Grizzle, daughter of Timon Davis, is said to be insane and will be tried in a few days.

It is said that the hotel and every room at Porter Springs is full up. Col. Farrow will have to enlarge his house by next season.

U. S. Deputy Marshal Downs, of Blairsville, writes us that the material reports circulated by Mr. Fields recently concerning him and his posse about their conduct while visiting an illicit distillery in Chastatee is untrue.

Col. Lilly, after an absence of several weeks in Texas on business, returned to Dahlonega last Monday. The Colonel traveled over a good portion of that state and found no place that suited him better than the old red hills of Georgia.

A protracted meeting is now in progress at Oak Grove church, conducted by Revs. Dowdy and Phillips, which seems to be breaking into the Methodist ranks, as two of that heretofore faith have joined and others are expected, besides some who have never belonged to any church.

A female disturbed the entire neighborhood out at East Chapel Monday by her sobs, cries and yells which she saw her lover pass through on his way to Cuba to fight Spaniards. The council has not yet passed an ordinance that hinders any one creating a disturbance caused by grief, is why the marshal made no arrest.

The Big Joe Mine is still showing up fine. No larger vein has ever been discovered in the country. They pulled up from the shaft last week a solid rock showing gold weighing four or five hundred pounds being worth \$20 per ton. Another one is in the shaft some ten or twelve feet long, two feet wide and 20 inches thick nearly as rich. This shows that there is plenty of it.

The Supreme Court in the case of Dock Marlow and his father over the custody of the former minor child has been decided in favor of the son. The little fellow has been with his grand parents ever since he was a sucking babe and has become so attached to them that it nearly broke the little fellows heart when he was told on Tuesday that he would have to go to his new home. His loud cries could be heard by the neighbors all around. And the old people feel sad and dread to give him up. But they will have to do so unless the case is brought up in a different manner.

Uncle Sam's enlisting officer after being in Dahlonega four days departed last Monday and seven of Lumpkin county's most patriotic sons left with him to join the Second Georgia Volunteers provided they succeed in passing the final examination, and will sail for Porto Rico as this regiment has already received orders to move. The names of those that left are: Jeff Satterfield, James Walker, Robert Beck, Wm. Worley, John Cook, of Dahlonega and Gordon Smith and Ben Perry, of Auraria. These young men have proved by their acts that they are willing to leave home, relatives and friends and go into a strange land and suffer the hardships of war to battle for the stars and stripes. The father of John Cook was away and the enlisting of his son was not known to his mother until the morning of his departure. Mrs. Cook followed the wagon near a mile in her buggy but when she got in sight John lit out for the woods and the lady had to return home without her son. No doubt the boys will find army life much harder than they expected. Some of our citizens while in Atlanta last week found some of the volunteers out at McPherson in pretty bad shape. They had not been supplied with uniforms and men were seen drilling coatless, shoeless and hatless and very ragged and dirty. If Uncle Sam's loves them treated this way now what will he do later on?

T. F. Cox, son-in-law of Mrs. B. F. Chapman, was here last Sunday from Mt. Vernon, Tex.

A supper will be given at the colored Baptist church, Thursday, next night. Every body invited.

J. V. Harrison is preparing his dates and will soon begin to stump the county and then the fun will begin.

We are requested to state that a singing will take place at the Long Tubes next Sunday at 9 a. m. Old books will be used.

John Chapman says that his school at Silver City is flourishing. He has 75 scholars and more coming.

Barney Brackett, while down at Tom Clarke last Sunday drinking and sporting his pistol went off, the ball taking effect in one of his legs and ranged down into the foot and had to be cut out by Dr. Jones.

The wife of John Beck, residing a short distance from town is very low and not expected to live. The family is in needy circumstances. The husband had no money to buy oil and those who went to stay with the sick woman the other night had to sit up in the dark. No use to send money off to foreign countries when it is needed badly at home.

It was stated in last week's NUGGET that Uncle Timon Davis, one of the members of the committee appointed to distribute twelve dollars given by the ladies for the benefit of the most needy veterans desiring to attend the reunion in Atlanta, had kept out one dollar of this money to help pay his own fare down. Mr. Davis says that it is false. We have made an investigation and find that he is correct in his statement as we have been given a list of the seven who reaped its benefits and Uncle Timon's name is not on it. He did not only pay his own expenses to Atlanta but assisted others. Capt. F. M. Williams, commander, also states that it was spent for the purpose for which it was intended and any one desiring to see the list and the amounts each one received can do so by calling on him or either member of the committee, said committee being W. H. Cook, W. H. McAfee and Timon Davis.

We understand that the bids for the Dahlonega school bonds as well as those for the erection of the school house will be opened tomorrow. Both the local press and home mechanics have been ignored by the committee. Three weeks ago an ad was sent to the Atlanta Constitution for three insertions and the money paid without one of the committee ever seeing it in that we have heard of. The home papers and home mechanics were not "in it." Had it been a thank you the local press would have been especially requested to put the matter before the people. Same way by the college printing. Most of the work is sent off to Atlanta and sometimes out of the State. Georgias money being sent off into other states for work that can be done nearer home by tax payers who have to help furnish the money. Neither is it right or just. Sometimes we are given a little college job when it is not convenient to send it off, notwithstanding we give from thirty to forty columns of matter during the year in the interest of this institution. Upon asking one of the school committee the other day why the local press and carpenters had been left but in this public school matter were told that they were going to put up such a fine building that it was thought that our carpenters couldn't construct it, and for this reason didn't think that it was necessary to advertise it here, but were afterwards offered a four line ad—amounting to twenty cents. This is all bosh. The carpenters here assisted in the construction of the college and surely this school house is not going to be a finer building than the college. It is very bad policy to make our people pay money and send it off to outside carpenters for work that can be done by those at home. This is not the way to build up a town.

The Mauseur Bullet.

The wounds sustained by marines at Guantanamo bay were terrible in effect and appearance, says an exchange. In the very first accounts of the skirmishes there it was noted that the dead were terribly mangled. This was due to the efficiency of the Mauseur bullet as short range.

The wounds were saucerlike affairs, and at first it was thought that the Spaniards had used 'soft' cartridges, which "set up" or spread like a mushroom upon impact, but the fact that the Mauseur rifle was the regulation small arm of the Spanish infantry led to an examination of the kind of flam-egre it does.

At short range the Mauseur bullet, because of its wonderfully rapid twist, tears a large hole. At a greater distance its gyrations grow fewer, it flights is steadier, and it makes a slitting wound like a saber thrust. At the greatest effective range the Mauseur bore like an anger, leaving only a small incised wound and completely penetrating bone, sinew, tendon or flesh opposed to it.

The United States adopted the Krag Jorgensen of 1892, about the same time the Spaniards concluded to arm their men with the Mauseur. Both are high power magazine rifle of the "cut off" type, central fire cartridges, and nearly the same weight. Each carries five cartridges. The Mauseur is 27 calibre, the Krag Jorgensen 30. The Mauseur bullet weighs 176 grains, the Krag Jorgensen 220 grains. The Mauseur is ejected by only 30 grains of powder, while the Krag Jorgensen takes 37; but the Spanish bullet is propelled by smokeless powder, which gives an initial velocity of 2,280 feet per second while ours goes from 200 to 270 feet slower.

The highest pressure smokeless powder used by the Spanish is equal to 21 tons to the square inch. Moreover, the rifling of the Mauseur gun barrel is such that the bullet has more twist when it leaves the tube. Hence, the big lacinated, saucerlike wounds. When the bullet leaves the rifle it pierces the air or any object less impregnable than armor plate with a horizontal spiral motion. At the same time it proceeds in minute undulation.

A NEW TRIUMPH.

The Dreaded Consumption Can Be Cured.

T. A. Slocum, the Great Chemist and Scientist, Will Send to Sufferers Three Free Bottles of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the generous offer of the honored and distinguished chemist, T. A. Slocum, M. C., of New York City.

He has discovered a reliable and absolute cure for consumption, and all bronchial, throat, lung and chest disease, catarrhal affections, general decline and weakness, loss of flesh and all conditions of wasting away; and to make its great merits known, will send three free bottles of his newly discovered remedies to any afflicted reader of the Nugget.

Already his "new scientific system of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it not only his professional, but his religious duty—a duty to which he owes to suffering humanity—to donate his infallible cure.

He has proved the "dreaded consumption" to be a curable disease beyond a doubt, in any climate, and has on file in his American and European laboratories thousands of "heartfelt testimonials of gratitude" from those benefited and cured, in all parts of the world.

Catarrhal and pulmonary troubles lead to consumption, and consumption, uninterrupted, means speedy and certain death. Don't delay until it is too late. Simply write T. A. Slocum, M. C., 95 Pine Street, New York, giving express and postoffice address, and the free medicine will be promptly sent. Please tell the Doctor you saw his offer in the Nugget. Jan. 28.

Sorghum as a Forage Plant.

QUESTION.—Is sorghum a good plant for feeding green, and for making hay? If so what variety would you recommend, and how to plant and save?

ANSWER.—Sorghum is a most excellent forage plant to feed either green or to save as hay. It does best on rich, loamy soils, but will do well on any soil that will produce fair crops of corn or cotton. Prepare the land well, and bed as you would for cotton in 3½ feet rows, using from 300 to 400 pounds of a complete fertilizer. About cotton planting time open a shallow furrow and drill the seed—from a half bushel to three pecks to the acre. Cultivate shallow and often. When grown for forage it is not necessary to thin out, though thinning is very essential when the sorghum is grown for syrup making. The "Early Amber" and "Minnesota Early Amber" are excellent varieties, as are also the "Early Orange" and "Kansas Orange."

Sorghum will do better on thin soils, and will stand drouth better than corn. For making hay, cut soon after it begins to bloom and put up in small shocks until cured. For feeding green, cutting should be begun as soon as the plants begin to form heads. Stir the ground with a cultivator or plow immediately after harvesting a crop, and the sorghum will continue to grow and make a second and third cutting. Feed but little at first, increasing the amount day by day, until the stock become accustomed to it.—State Agricultural Department.

About Subsoiling.

QUESTION.—Is it not injurious to land to subsoil at this season? I am a young farmer, but I have always heard that it was dangerous to bring the clay to the surface after the late fall or early winter.

ANSWER.—You are under a misapprehension as to the meaning of subsoiling. This is not a turning of the clay to the surface, but it is the breaking up of the subsoil at the bottom of the furrow, and leaving it there. This may be done by following, in the bottom of the furrow, which is made by an ordinary plow, with a long narrow "scooter," or a "bull tongue." Or it may be accomplished with one furrow, made by a subsoil plow, constructed especially for this purpose. In either case it simply breaks up the lower soil, which is not reached by an ordinary plow. This plan will expose it to the action of the air, will drain it of surplus water or make it more retentive of necessary moisture, and by thus increasing its porosity or powers of absorption will not only regulate the moisture for the use of crops, but will bring into service its heretofore locked up and insoluble elements of plant food.—State Agricultural Department.
